

7 Android and iOS apps help you prank people

Do you like to play pranks on people and you own a smartphone? So what are you waiting for, the following apps will help you to play pranks on your friends and relatives easily.

Pranks seem to be becoming more and more popular today. You can easily find dozens of hoax videos from small to large on the Internet. But if you don't have enough time and money to invest in large-scale hoaxes, use mobile phone prank apps to have fun and refreshing moments with friends. after studying and working hard. The following article will summarize you 7 best prank apps on Android and iOS phones.

1. Bee Swatter Prank Game (iOS)

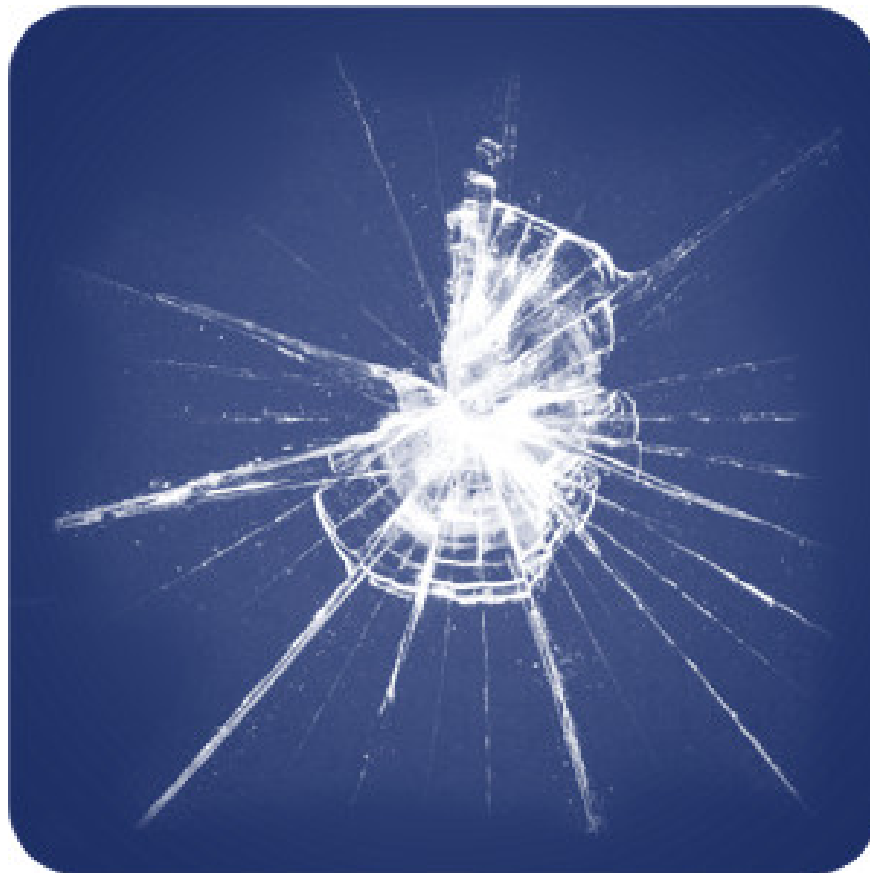

This is a prank application in the form of games, with content about catching bees. The player will have to press the screen to kill the bees that are hovering over it. A special feature is that the game will start in an extremely normal way like other games where the player will have to pass each level with different difficulty levels and requirements until the levels are higher than required. The player must press the screen stronger to destroy the bees.

While your poor victim is passionately stressing on the screen, suddenly your phone stops working, the screen starts to show cracks and there's no reaction when you click on the screen. . Imagine how interesting the face of the victim will be.

The way to turn off the application is to swipe your finger from the lower right corner of the screen to the upper left corner of the screen. But of course your victim doesn't know about this.

2. Crack Your Screen (Android)

This is the application specializing in cracked, broken screen effects. Unlike the previous application, you will not need to play the game so sometimes it will be more natural.

There are three ways to activate the effect. The first is to shake the device to break, the second is to touch the screen to break, and finally to the timer.

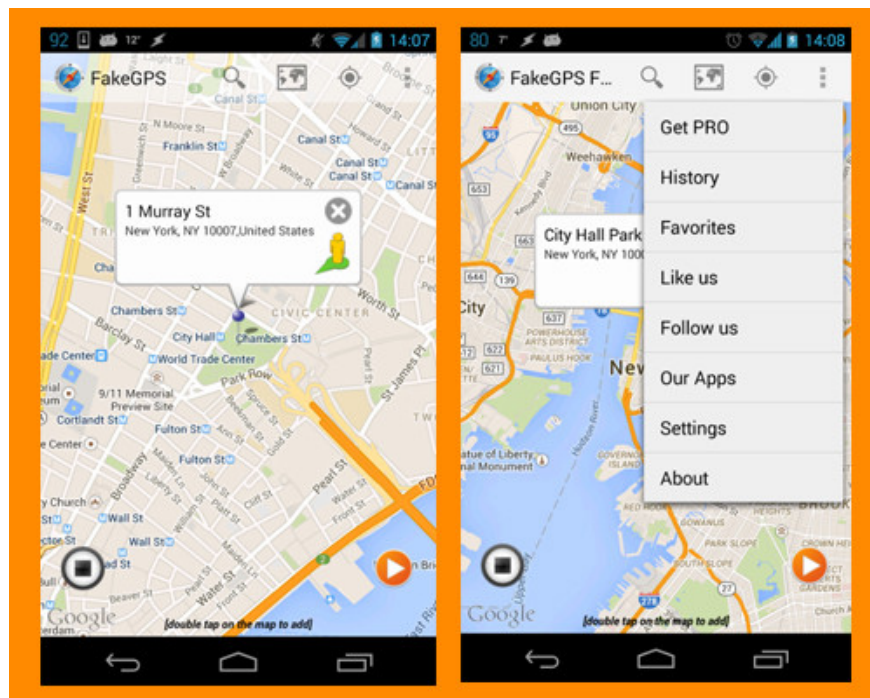

Maybe the crack on the screen won't look very natural, but it will startle the victim for a few seconds. This is a pretty simple application that helps you prank people.

3. Fake GPS Location Spoofer Free (Android)

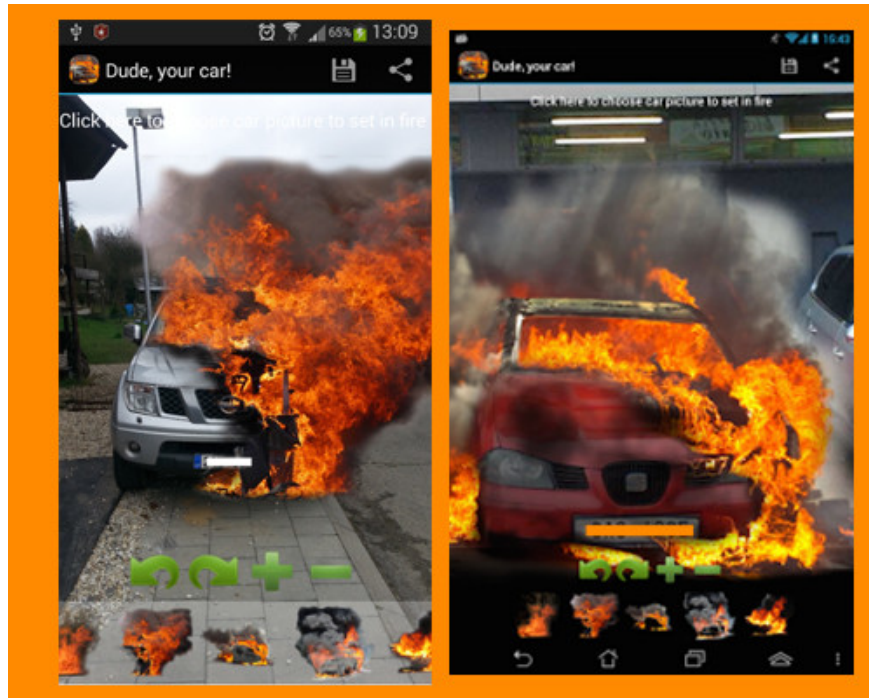

Fake GPS Location Spoofer is an application that allows you to choose any location in the world then locate the place where you are and make your friends and family members confused when you see your location.

4. Dude Car Prank (Android | iOS)

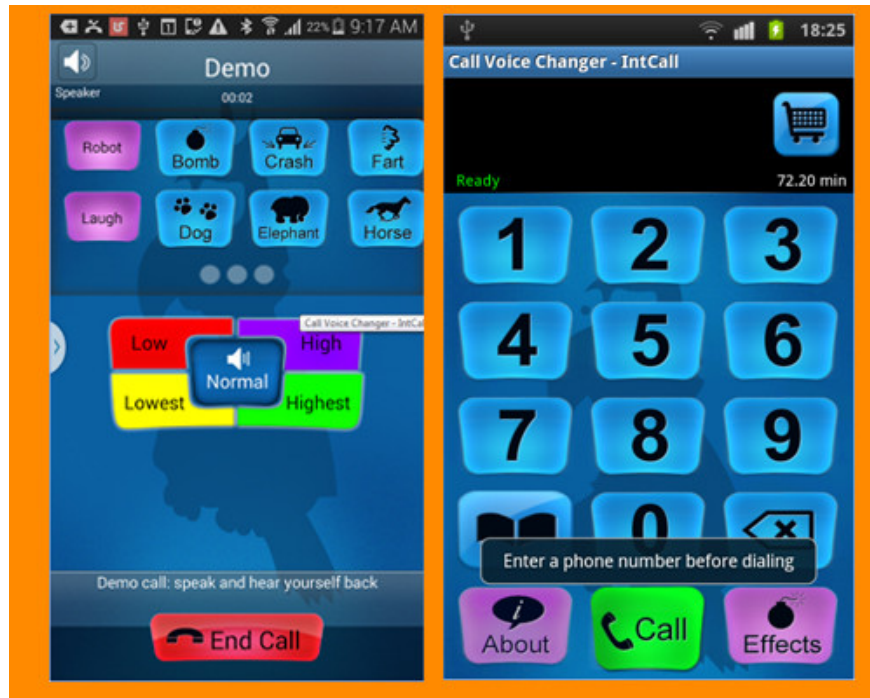

Dude Car Prank is an effective hoaxing app that makes victims believe their cars are having terrible problems. Just take a photo of the victim's car, then add some special effects. The victim's angry face and worry may make you laugh.

5. Call Voice Changer (Android | iOS)

Call Voice Changer is an application that changes the voice of the user right when calling. Call a friend, then open this application and change the voice according to the effects available in the application. You can also add some unusual sounds between calls such as barking dogs, crashing sounds or explosions.

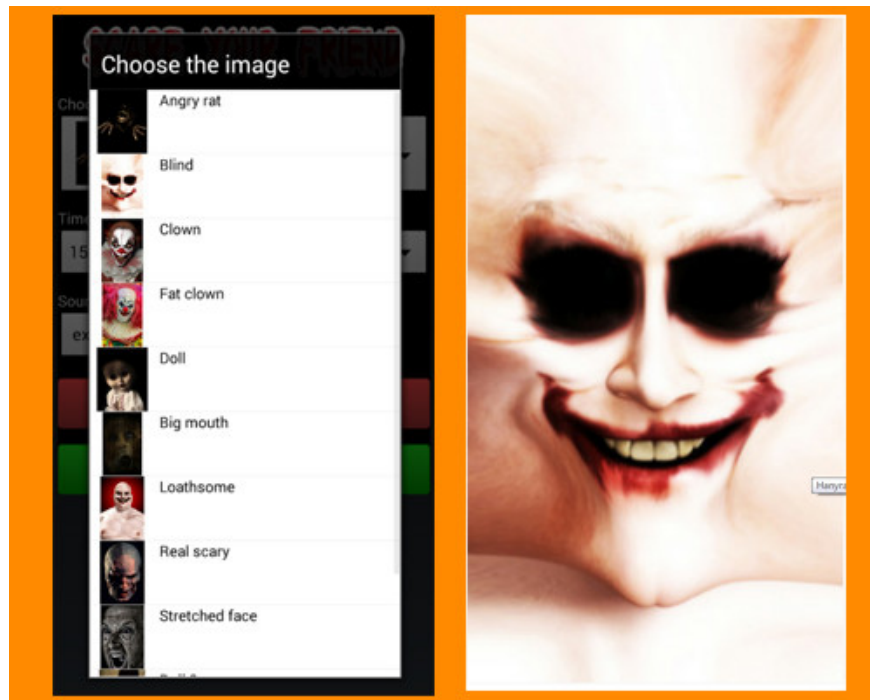

6. Scare your Friends (Android)

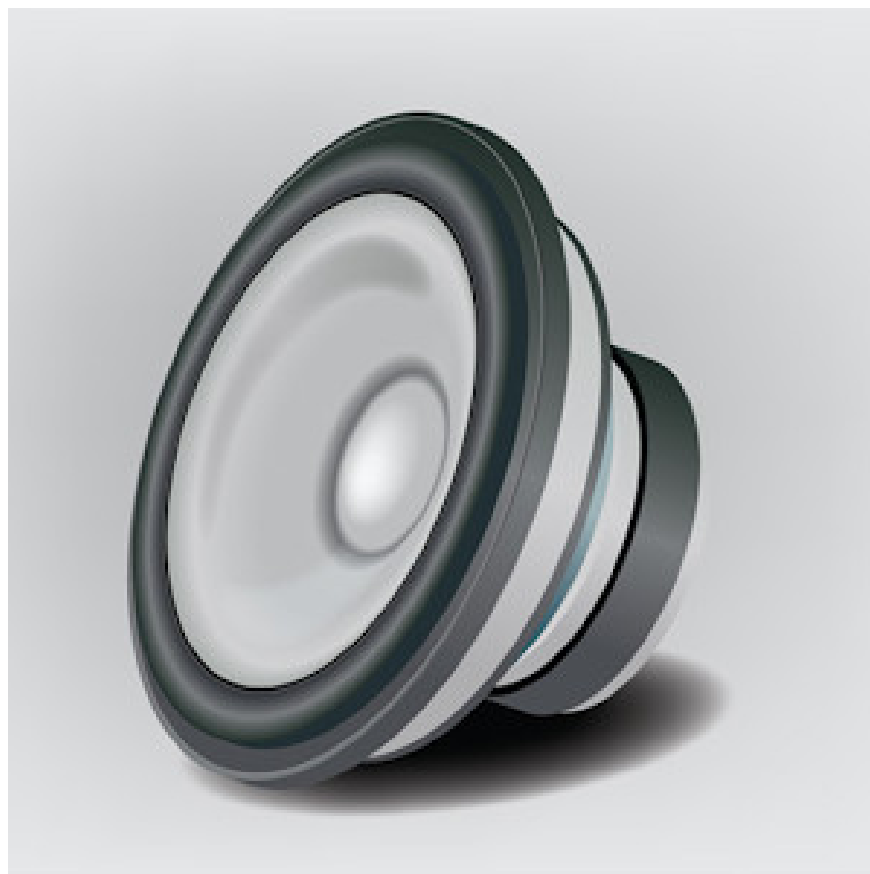

It can be said that this is a pretty effective prank application on smartphones when it can startle the victim with terror.

The operation mechanism of this application is quite simple. Just choose one of the scary photos in the app, then set the timer to the right time when the victim is using your phone. When the time comes, the photo will automatically appear with a scary scream, enough to startle the victim. But be careful with the person you want to prank, because some people are startled, they will throw your phone away.

7. Audio Blaster and iTorturer (Android | iOS)

iTorturer and Audio Blaster are two hoaxing apps on iOS and Android with an action mechanism that creates mysterious sounds. The application has the ability to create high-frequency sounds, creepy sounds, cat sounds, humming insects .

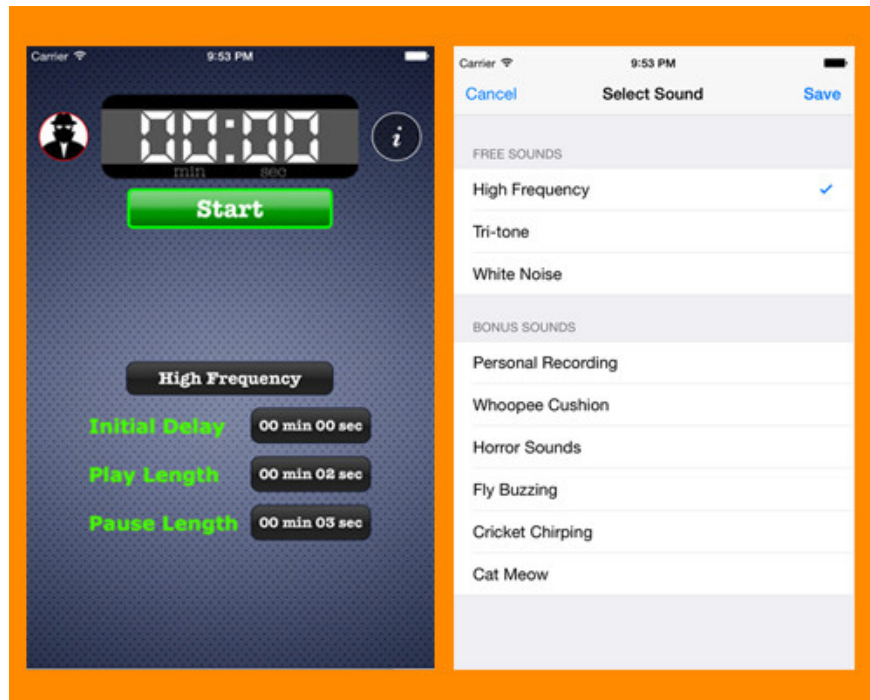

You can trick the victim by telling them that they alone hear the sound. This application is most effective in the crowd, it will be difficult for those around you to discover this is just your prank. In addition, you can connect to a bluetooth speaker to be able to control audio from another place in the room.

Audio Blaster
