

7 interesting facts about the legendary Tetris tile game that not everyone knows

Tetris, the legendary puzzle game has been associated with many people's childhoods, but not everyone knows about the author, the title song of the game title ... Let's learn about interesting facts about this game.

Tetris, the legendary puzzle game has been associated with many people's childhoods, but not everyone knows about the author, the title song of the game title . Let's learn about interesting facts about this game.

1. The author of Tetris cannot receive any money from his game

In 1984, Alexey Pajitnov, a designer working at the former Soviet Academy of Sciences, designed this game in just 2 weeks. With attractive gameplay, Tetris quickly attracted many people but the recipient of money is not Alexey Pajitnov but the former Soviet government.

It was not until 1996 that the Soviet Government returned the ownership of Tetris to Alexey. He founded a company called Tetris Company and sold game rights to make money from it.

2. The theme song of Tetris

The song of this game is a Russian folk song, called "Korobeiniki". The song is about a street vendor who falls in love with a girl, and in order to win the heart of the person he loves, he gives her many gifts. Korobeiniki was composed in 1861.

3. Name Tetris

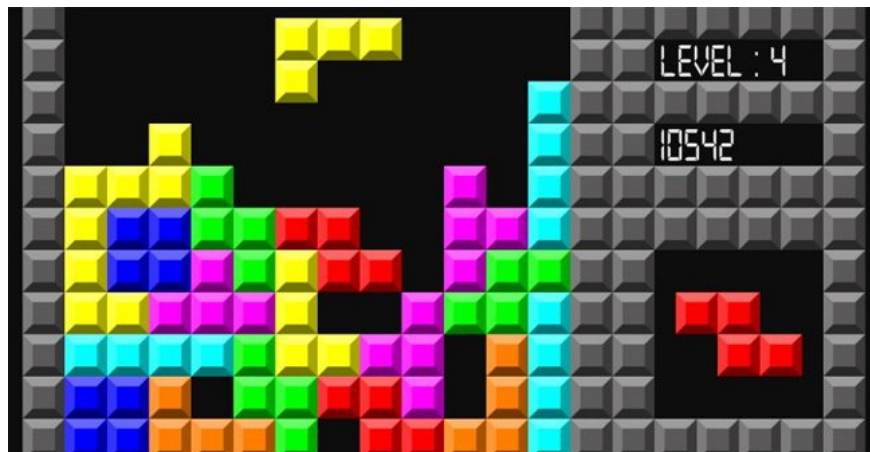

Tetris is made up of a Greek word "tetra" (meaning "four" because all the pieces in the game consist of 4 parts) and "tennis" (favorite sport of Alexey Pajitnov, the creator of the game). this).

4. Pokemon & Tetris used to have a combination

Nintend has released the game Pokemon Tetris, combining Game Boy, Pokemon and Tetris on a new system named Pokemon Mini, something that is only used to play Pokemon. Pokemon Tetris also has the same gameplay as the original game, except that at the end of each level, players can catch Pokemon. Unfortunately, Pokemon Tetris has not been as successful as expected.

5. The game is present on the most platforms

Currently, Tetris games are present on 65 different platforms around the world. And according to the World Records, this is the game that is present on the most platforms.

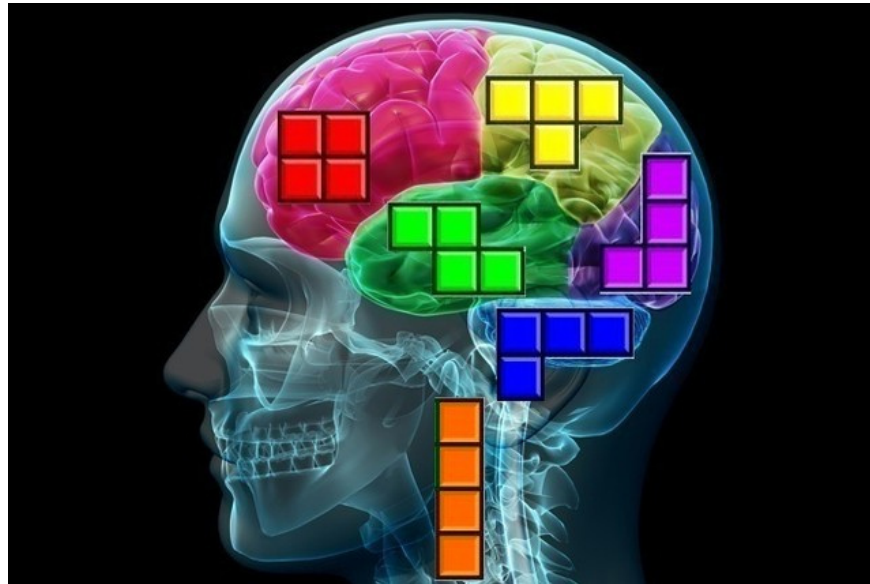

6. The first game is played in space

In 1993, a version for Gamboy was wandering in orbit 196 days on Mir space station. During that time, it has traveled around the Earth more than 3000 times.

7. Play Tetris well for the brain

According to the experiment of Dr. Michael Crane and Richard Haier, Tetris play for a long time can increase the cortical thickness of up to 0.5 mm. The cortex is the place that is responsible for memory, concentration, sensory perception, thinking and language.

In addition, several other studies have shown that Tetris play can also help reduce post-traumatic stress disorder, help players lose weight, quit smoking and drink less stimulants.
