

7 interesting things about the most populous city in the world that not everyone knows

Tokyo is the most populous city in the world, with about 37.39 million people according to World Population Review 2021 data. Below are some interesting things about this city, please refer to it.

Tokyo is the most populous city in the world, with about 37.39 million people according to World Population Review 2021 data. Below are some interesting things about this city, please refer to it.

Shibuya in Tokyo is the busiest intersection in the world with an average of more than 2.4 million pedestrians passing through this intersection every day. At the busiest times, about 1,000 - 2,500 people cross the street in about 2 minutes. On New Year's Eve, this intersection serves as center stage for the countdown.
