After a fight, there will be something left for you. That you may not need to pick anything up and still get top 1 but items like this will support you a lot.

4. Lying and hiding

If you keep moving by running or sitting, you are no different from a wild animal that is disoriented and becomes a good prey for the enemy. Instead, wisely monitor the enemy, avoid fighting by lying and crawling on dense terrain, which will limit the enemy's vision. At that time, please wait patiently to find that there is no sign of the enemy to stand up and move.

If it is a hardcode and you are getting blacked out when you can't get a lot of things, use any of the guns that can be looted, even if it's too bad, don't be picky. Type: "I didn't pick up Uzi, I want M4, only a pistol, what do I do if I don't have 4x?".

If you continue like this, you will not have anything in your hands, so it would be better if you could do wonders with Uzi or Shotgun.
