

8 Spicetify extensions you should install for Spotify

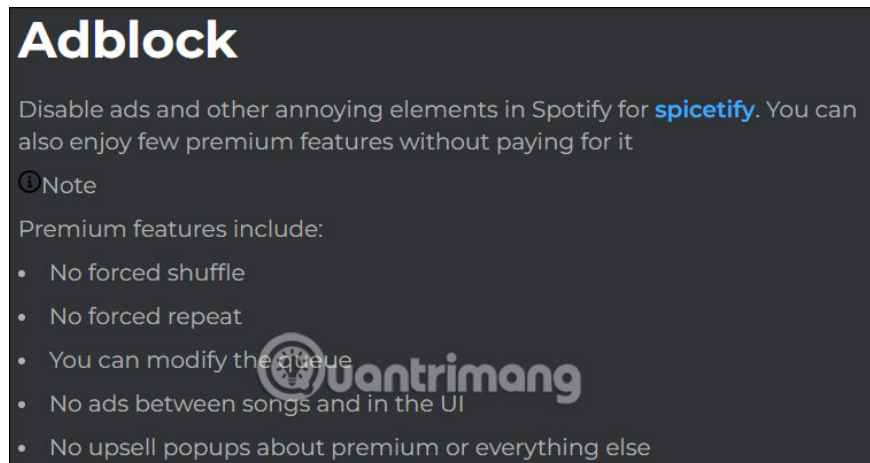

Although Spicetify has many utilities for you to install, there will be some suitable utilities to enhance your music listening experience on Spotify.

Below are some Spotify extensions on Spicetify that you can refer to.

Adblockify utility

With a Spotify Premium account, you won't be bothered by ads, but with a free account, you won't.

The Adblockify extension will block all ads on the Spotify app, no more Discover Premium ads, no more random sponsored content, no more ads interrupting you while you listen to music.

Adblock

Disable ads and other annoying elements in Spotify for [spicetify](#). You can also enjoy few premium features without paying for it

① Note

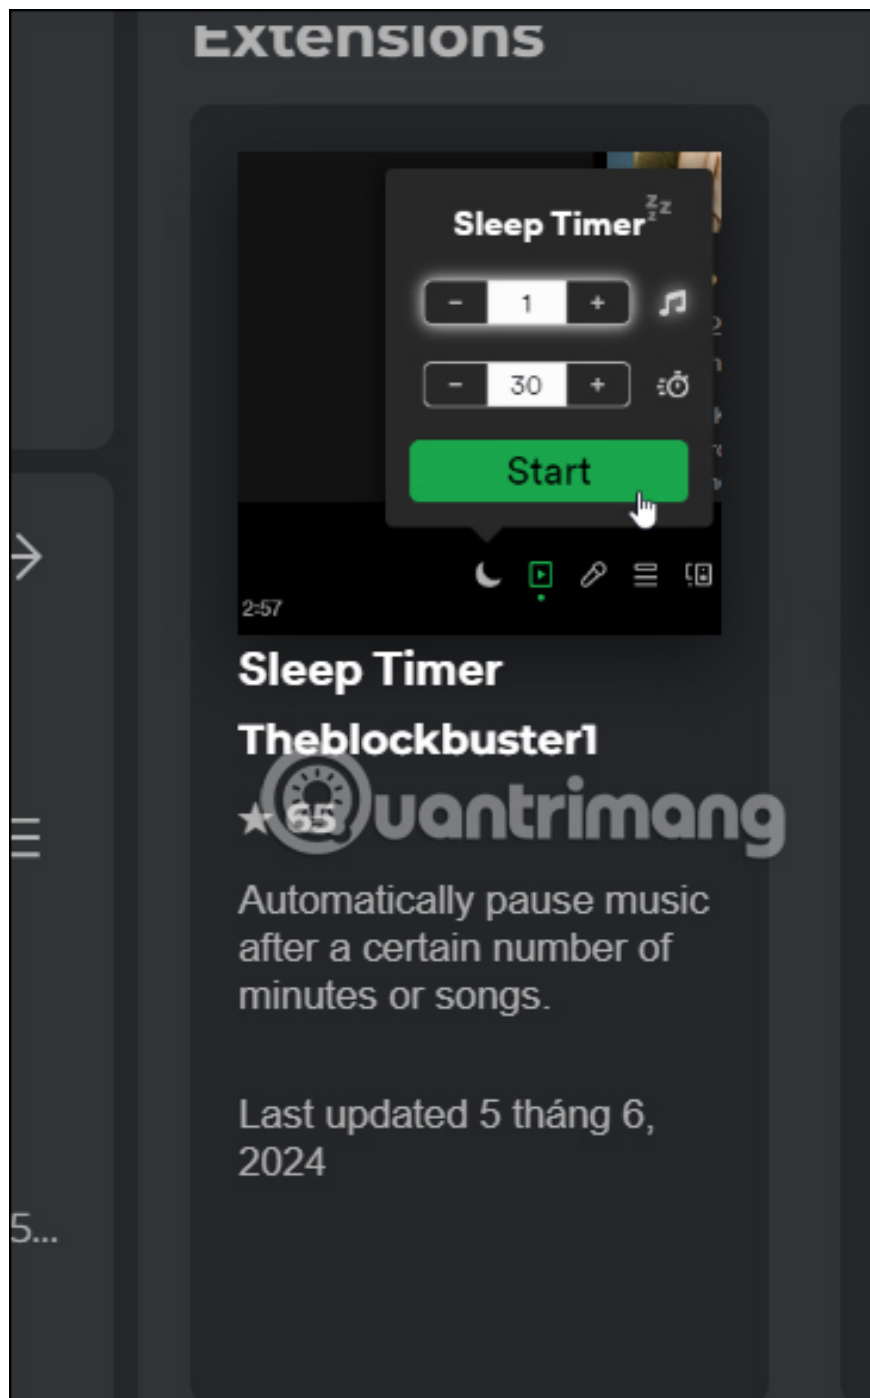

Premium features include:

- No forced shuffle
- No forced repeat
- You can modify the queue
- No ads between songs and in the UI
- No upsell popups about premium or everything else

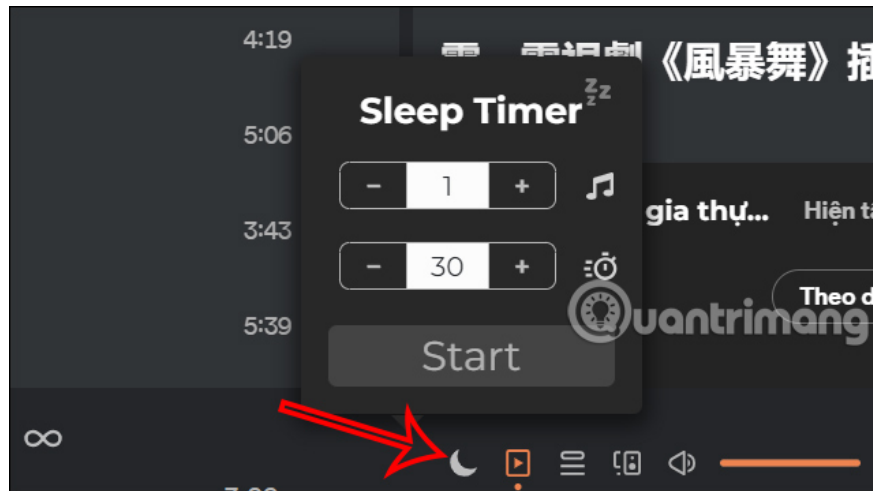

Quantrimang

Sleep Timer

You can turn on the Sleep Timer sleep timer feature on the phone application, but it is not available on the computer. The Sleep Timer utility will help you set a timer to listen to Spotify music on your computer.

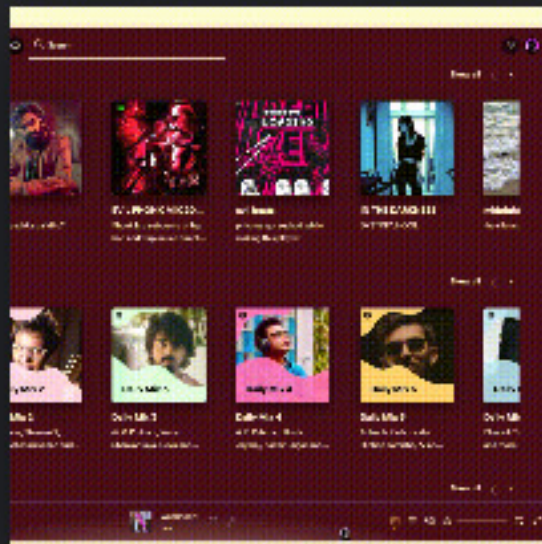

We **click on the timer icon** and then set the time to our liking.

Spotify

This extension automatically adds the music your friends are listening to to the Waitlist list. You can choose the music your friends want to listen to.

Loopy Loop

Want to play a certain part of a song over and over again? The Loopy Loop extension will help you do that. This widget allows you to set points to create a section of music that you want the music to repeat, and only when you delete that section will the music stop playing again.

Volume Percentage and Editing

This widget helps you adjust the volume and also shows the volume percentage near the volume bar. From there, you can easily change the volume level to your liking.

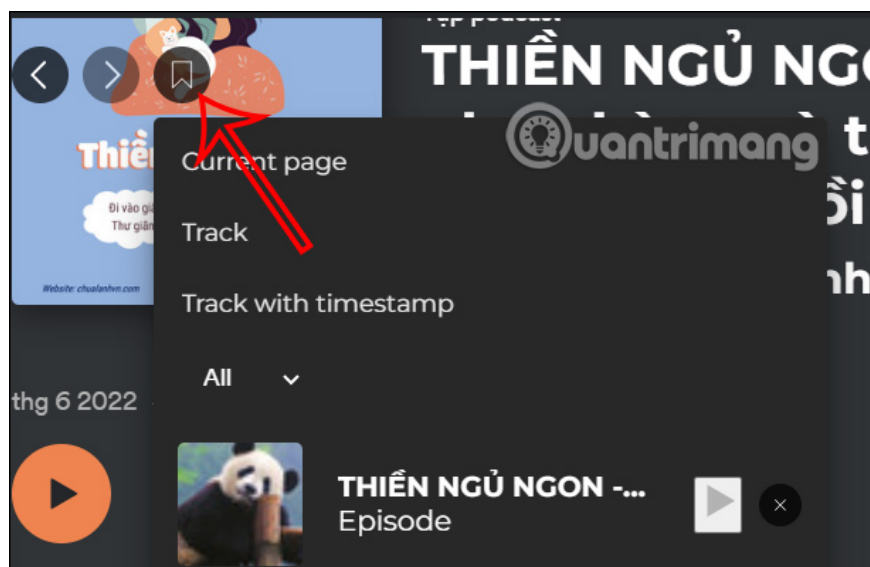

Upcoming Song

When you install the Upcoming Song widget, it will display the name of the song that will play next next to the currently playing track.

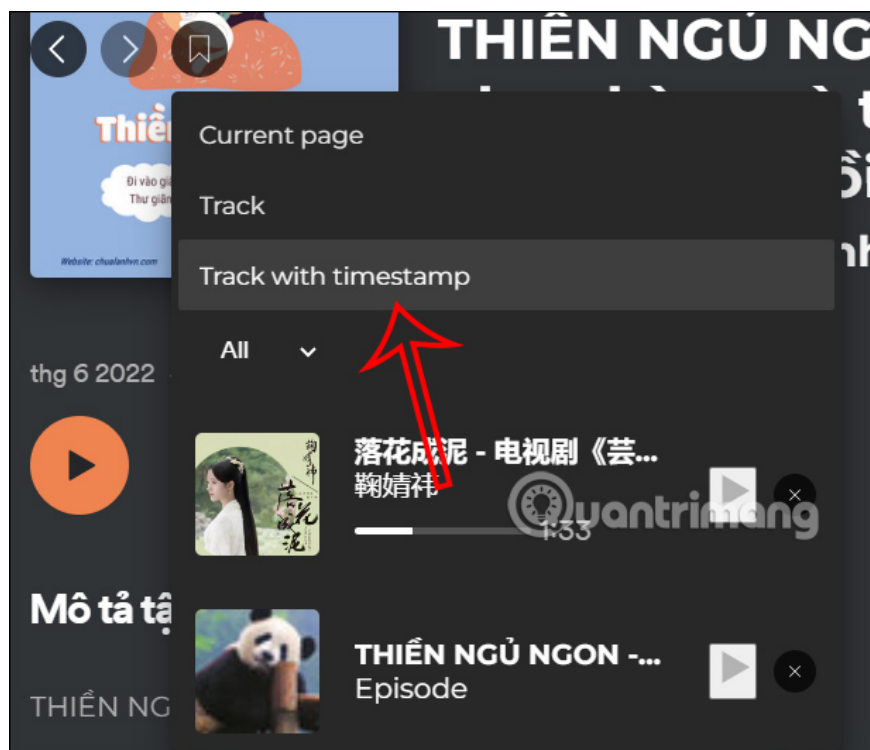

Bookmarks

Bookmarks is an extremely useful extension developed by Spicetify that allows you to bookmark tracks and save Spotify pages to review as browser bookmarks.

In addition, the Bookmark utility also has the ability to create bookmarks for specific music times, by pausing the song at a certain time and creating a bookmark.
