

# 9 best fighting games on Android and iPhone

There are several excellent fighting games available to play on mobile phones, and in this article, TipsMake.com will list the best fighting games on Android and iOS.

There are several excellent fighting games available to play on mobile phones, and in this article, **TipsMake.com** will list the best fighting games on Android and iOS.

These fighting games are very interesting, with decent graphics and high replayability (the potential of the game being replayed after the first completion) is high. Find out in detail through the following article!

## What is the best fighting game on Android and iPhone?

1. Shadow Fight 2
2. Mortal Kombat
3. Street Fighter IV CE
4. Dragon Ball Legends
5. Super Brawl Universe
6. Injustice 2
7. Skullgirls
8. EA Sports UFC
9. Shadow Fight 3

### 1. Shadow Fight 2

One of the best parts of Shadow Fight 2 is its beautiful art style. The graphics of Shadow Fight 2 make everything look mysterious. Thanks to this timeless style, the game still looks absolutely gorgeous despite being released in 2013.

However, Shadow Fight 2 is not just a game with a beautiful interface, there are many other things worth admiring. This is a fighting adventure that challenges players a lot and requires real skills if you want to move forward. You move from one world to another, defeating all warriors on your own, and the ultimate goal is to defeat the demons to restore the Gates of Shadows.

Are you ready to challenge and fight an ancient devil?

## 2. Mortal Kombat

After being introduced in 1992, Mortal Kombat finally found its way to mobile devices. Mortal Kombat for Android and iOS takes elements from Mortal Kombat 11 for the console, building an epic, bloody fighting adventure based on them. The game has a series of iconic fighters, such as Sub Zero, Scorpion, Cassie Cage, etc.

Don't you know how to play Mortal Kombat? No problem. The game does not need any controller. Intuitive, easy-to-use touch controls let you score critically-charged points against enemies. This mobile version of Mortal Kombat also boasts incredible console quality graphics and a variety of online modes.

Overall, Mortal Kombat for iOS and Android allows you to become Kombatant right from your smartphone.

## 3. Street Fighter IV CE

Another classic franchise that appears on iOS and Android is Street Fighter. Street Fighter IV CE is a great port (designed to run on one platform, then converted to run on another) of Street Fighter IV, released in 2008 for consoles. The game has nice graphics, on par with the console version and the same functions as the game console but with touch controls. This is a great option if you like competitive fighting games.

On top of that, there are many legendary warriors, like Ryu, Ken and Chun-Li. And there are online games with bloody warriors from around the world. So if you want Hadouken to overcome all enemies on the move, this game is for you.

## 4. Dragon Ball Legends

Dragon Ball Legends is a Dragon Ball game for mobile gamers. It has an epic 3D fighting game style, similar to the gameplay of the Dragon Ball Xenoverse series for the home console. But this game has its own unique character with a bit of RPG elements. Talking about the touch, the controls of this game are really simple, interesting and easy to learn.

You can choose to play heroes like Goku and Gohan or bad guys like Broly and Frieza. And there's also a new, original Saiyan character designed by the creator of the Dragon Ball game Akira Toriyama.

Overall, Dragon Ball Legends is a perfect choice for gamers who want a fight inspired by anime, with the legendary heroes of Dragon Ball Z.

## 5. Super Brawl Universe

Nickelodeon and Playsoft's Super Brawl Universe is a stark contrast to all the other games on this list. The reason is that this game has a bunch of Nickelodeon characters.

All of your favorite Nickelodeon characters will team up in this gentle, family-friendly fighting game. Dozens of warriors, from Cosmo and Wanda to Squidward and Aang, were ready to fight each other.

Super Brawl Universe is not a strange game filled with funny characters from favorite cartoons. It is a real fighting game that you can play on the move.

## 6. Injustice 2

Injustice 2 Mobile, based on Injustice 2, is a harsh reality for the world of DC superheroes. You can fight as Batman, Superman and Joker in this beautiful graphic game. Besides, the touch controls in the game are great and really easy to master.

Injustice 2 Mobile is basically the superhero version of Mortal Kombat, as both franchises are developed by the same team, NetherRealm Studios.

## 7. Skullgirls

Skullgirls is not only one of the most attractive interface games on mobile, but also an extremely impressive and interesting fighting RPG. This game has nice graphics in the anime style, along with lots of vivid and exotic characters. Of course, the fighting mechanism and gameplay of the game are excellent.

Skullgirls has a very inspirational storyline. You live in Canopy Kingdom, where many people are looking for a mythical object called Skull Heart. Skull Heart is a tool that brings wishes to any woman, but if it falls into the wrong hands, that person will turn into an evil force called Skullgirl.

## 8. EA Sports UFC

If you want to be a bit more realistic in your fighting games, you should try EA Sports UFC.

Unlike the other games on this list, EA Sports UFC is based on a real-life professional sport. It has tons of UFC action and over 70 MMA fighters. The game has a very high level of authenticity. You can only feel extreme stress when defeating enemies.

If you are eager to enter the Octagon and join the most intense MMA match, try this game.

## 9. Shadow Fight 3

The sequel to Shadow Fight 2 does not follow the mystical artistic orientation of the previous version, and instead is a more realistic, harsh style that suits traditional fighters like Mortal Kombat. But the gameplay is

better than ever.

In Shadow Fight 3, you can customize your warrior in many new ways. And now, there are new types of fighting, you can fight like a knight armed with a blade, a ninja or a dark energy master. There are also a variety of offline and online game modes to choose from.

Shadow Fight 3 is a better option than the previous version, if you're looking for something more traditional and powerful, and Shadow Fight 2 is a better option for gamers looking for something simple. Simplified.

1. Download Shadow Fight 3 for iOS | Shadow Fight 3 for Android (Free, in-app purchases)

Above are the best fighting games you can play on smartphones. You will find a suitable choice, whether you want to play something weird, like the Super Brawl Universe, or something bloody, like Mortal Kombat.

If you're looking for games that can be played offline while on the go, here's a list of fun mobile games that don't require an Internet connection.

1. The 20 best free offline Games for Android
2. 12 best offline games for iPhone and iPad

And if you want to play something more mentally challenging, these are online games that help improve memory.

Wish you find yourself a suitable choice!
