Areas where there are helicopters in Payload PUBG Mobile mode

Schools

The first helicopter was in the School area, the hot area on the Erangel map. However, if you cleverly respond even a little, you and your team can still win this helicopter.

Prison

Right in front of the large building in the Prison area you will see a helicopter parked there. This is also a hot area, so quickly loot your stuff and leave quickly before the enemy can destroy your helicopter.

Sosnovka military island

The third helicopter was parked at the Sosnovka military island area, near the entrance to the area. This is also a hot battle area for gamers.

Novereprnoye

Next in the Novorepnoye area, the helicopter in this area is located near the container crane and is easy to see. This is also a hot area located near the Sosnovka military district.

Myta Power

Near the deserted area inside Myta Power will appear a helicopter, you can see this helicopter as soon as landing on the ground. The fighting level of Myta Power is not as fierce as the above locations so you can leisurely loot and climb helicopters.

hospital

The hospital is also an area where fighting is quite intense, so getting a helicopter near the hospital is a difficult task.

Primorsk

Primorsk is a place located on the edge of the map, so the number of people frequented here is small, if you do not want to fight early, you can loot enough items here with your team and then board the helicopter to bo.

Severny

Serveniy is also an area on the edge of the Erangel map, but helicopters are parked indiscriminately and do not have the specialized apron in the above areas. At the same time, it is also in a difficult position to find, in return, this area has two helicopters.

Yasnaya Polyana

Another difficult area to find helicopters in Erangel, but you "scour" the first area leading into this town will see helicopters parked near a small building.

Above are some areas with helicopters in Firepower mode PUBG Mobile. With fierce fighting areas, if you can get the helicopter, it is not perfect to fly out of it because the enemy can use a grenade launcher to attack your helicopter.

As for the "remote" areas, the chances of survival are high, but the stuff is not as good as in the other areas. So if climbing a helicopter, the firepower to destroy the enemies below is not strong. You need to use a helicopter to run the bo, while looting things in other areas and eating missiles from the M3E1-A is unavoidable.
