

9 things to note when playing PUBG Mobile if you want to top

PUBG mobile is a survival game, there will be 100 people will be taken to a deserted island and your mission is to fight to protect your life safety to the last minute.

PUBG mobile is a game that is storming the world market. After officially launching PUBG mobile version in Vietnam for users, this game has caused gamers to be enamored by graphics as well as attractive gameplay that many people give up Mobile Union to join PUBG mobile.

1. Download PUBG Mobile game for iOS and Android phones
2. How to play PUBG Mobile on PC using Nox App Player

PUBG mobile is a survival game, there will be 100 people will be taken to a deserted island and your mission is to fight to protect your life safety to the last minute.

So how to preserve your life and can keep top in this game, please read the following article.

1. Do not choose crowded places to parachute

To survive, before parachuting you have to choose for yourself a place that contains a lot of gas as well as items to equip during the battle. There are 2 things you need to remember when jumping though that the building has many things to pick up and that building has many people and they are trying to destroy you.

If the house is full of weapons, but there are too many people, then you should give up and go to a house with fewer people, maybe there you can find some new weapon. .

Many people often choose crowded areas to pick up weapons and fight. However, if you are a rookie, this is not possible.

2. Picking up things is the only thing that exists, other things are or are not important

If you want to defeat all the enemies, immediately after answering you down, you need to search for yourself a weapon to fight, the next weapon is the armor that will help you heal during the battle.

After being fully equipped, you should find yourself a better, more suitable weapon.

3. Use available automatic functions

For beginners familiar with PUBG will not be familiar with the interface. Understanding this, game publishers also have built-in automated functions for people to be more proficient. There will be 3 automatic modes for players to use.

1. Automatic sprint: When you want your character to always run at high speed. You just need to drag the icon to move your left high, the function will automatically activate (Auto Sprint)
2. Look around without changing the direction of the run: Just move the eye icon to the right of the screen, you'll see around you without changing the direction of the run. This will help you see if you have an enemy or not.
3. Automatically pick up items: Your character will have Auto Loot feature (it will automatically pick up items), it will pick up the necessary things like guns, bullets, armor and some rare target barrels like 4X, 8X.

4. Note this is PUBG Mobile and not on PC

Maybe you are a player when playing PUBG on a PC but when playing on a smartphone, you are not sure.

When playing you need to pay attention to listen to footsteps or gunfire to know where your opponent is to fight.

5. Aim carefully before shooting

When playing you should not shoot arbitrarily, indiscriminately but find enemies, aiming them to shoot. This will help you avoid wasting bullets.

In PUBG Mobile, it is more pleasant than other FPS games that you will have a fire button on the left. It will help you both aim and shoot easily.

6. Locate the enemy with sound

A hearing aid to hear the enemy's movement will be crucial to your survival. Try to listen to the footsteps that will help you judge whether the enemy is near you to easily destroy.

7. Install the interface according to your forte

A player will know how to adjust the control keys best suited to me. It helps you have faster reflexes in life and death situations.

You should not forget to adjust the configuration and speed of FPS to match your smartphone in the Settings section.

8. Should use the car when in danger

In the PUBG category, there will be a danger zone that is constantly shrinking so that you and the other player run in the same direction, this will increase your encounter with other players. We always want to get out of that dangerous area (many people call "run bo") to enter the safe area. However, if you are too far away, the car will be the first choice. Run the big roads and find your car.

9. Should cooperate with teammates to protect people

If you have time, ask your friends to play together, but we will have more skills to cultivate with friends, along with support during the "teamfight", your friends are the ones you should trust the most.

If you have any good experiences, please contribute as a comment!

Have a happy time!
