## How is a good family karaoke?

To evaluate how good a family karaoke system is, the quality depends on a lot of factors. From the karaoke equipment itself, is it modern or not? Is karaoke microphone good? What is its sound quality? What is the effect of using that karaoke?... Not to mention that those devices are properly paired or not.

However, note these factors are sometimes relative and play a role as a means to make a quality karaoke. Also to judge whether a karaoke system is really good or not also depends on the ability of the owner of the karaoke machine to hear sound and music. Everyone has a different taste in music and appreciation. Therefore, there is no exact standard that can evaluate the level of family karaoke.

However, choosing the equipment for good karaoke is also very important, contributing to the whole family of top quality music parties and uplifting moments in music. Therefore, you can refer to our advice in buying karaoke family experience or below!

## **Experience choosing good family karaoke, cheap**

Based on our experience in the field of electronics products business, here we will advise you on some of the most basic experience to choose a professional, extreme 'quality' karaoke family. as out of stock.

### **Choose the form of karaoke orchestration**

Currently, on the market, there are 2 forms of home karaoke systems that manufacturers offer, which are pre-assembled and self-assembled. With pre-mixed home karaoke system, you just need to select the brand and learn the specifications of the devices in that orchestra without having to worry about choosing each device separately. As for the self-assembly type, you have the opportunity to choose the specific types of equipment that you like. In particular, if you are a person who is good at audio equipment, you absolutely can choose a very good and super standard home karaoke system for the whole family.

Therefore, depending on the needs, interests and conditions of the family, you choose the model that best suits. If you choose the self-assembly model, you can continue to explore our selection of devices below.

### **Select the first karaoke**

Karaoke player is a very important device in karaoke system to help you choose songs and play music effectively. A good karaoke player must be a high quality, modern player that ensures the conditions such as: large capacity to store many songs with a variety of genres, the ability to update new songs quickly and easily, grading function. In addition, it can integrate other features such as connection to the internet, wifi and other smart mobile devices. to cater to the singing needs of the whole family.

### **Select karaoke speakers**

Karaoke speakers are an indispensable part of the home karaoke system, it even decides most of the sound quality of the whole system. A good karaoke speaker must ensure loud sound, clear, not distorted or timid, has a wide sound range to be able to fully express the levels of sound and vocals.

However, when choosing to buy karaoke speakers to note, it must have a capacity suitable to the area of the family theater. Typically, the theater area is less than 20m<sup>2</sup>, you should only choose speakers with a capacity of 100-200 W / speaker is sufficient. Should not choose speakers with too large capacity, making listeners feel jarring, tired.

### **Choose amply karaoke**

Amply is the device that performs the task of amplifying sound and transmitting it to karaoke speakers. A good amplifier will contribute to bring good sound quality for that karaoke. When choosing a karaoke amplifier, besides being concerned about the functions, you need to pay attention to its capacity. To bring the best sound quality, you should choose the power of the amplifier greater than the capacity of the speaker from 50 - 100W. If the power of the amplifier is smaller than the speaker power, the speaker will be distorted or be timid. Conversely, speaker power is smaller than the amplifier power, which will easily cause the diaphragm to burn.

### **Select karaoke microphone**

Not sure if you understand the role of the microphone microphone, right? A good microphone will contribute to making your home karaoke become more perfect. But choosing a good microphone is not easy.

You should choose a microphone that has good sensitivity and ability to capture sound, can catch sound at a distance from the mic, so that it will help singers not get tired and sing softer. Besides, the ability to receive signals of the microphone also need to be good even at a distance and with obstacles around. In addition, the microphone needs good anti-howling and anti-signal interference to ensure your voice is always clear and free of noise. For wired microphones, the extension cord should have a length that is appropriate for the room.

## **How much does family karaoke cost?**

It is evident that quality, modern karaoke audio equipment often comes from famous brands and has a fair price. Conversely, the karaoke audio equipment in the medium or low segment will give sound quality is not high. However, not all families have the same financial condition, therefore, to choose the most suitable karaoke unit but with the most suitable price, families should base on the demand, use purpose and financial condition to select the appropriate pricing.

The price of a home karaoke system depends on what type of karaoke system it is and how much the price of each audio device is. But in general, the cost to buy equipment for full karaoke will usually range from 3 million to less than 10 million, even with high-end equipment can reach over 15-20 million. Below, we would like to give the price list of some of the following karaoke equipment for you to easily imagine offline.
