Casper's direct water heater?

Casper is a brand originating from the country of Thailand Golden Temple, where there is a highly developed industrial production industry. Casper specializes in manufacturing and trading of household electrical goods. Despite being a new brand in the market, Casper's products have quickly received the trust and support from Vietnamese consumers.

All Casper direct water heaters are manufactured in Thailand and imported to Vietnam for distribution. This means that if the Casper dispenser you bought originated in any country other than Thailand, it could be fake.

Advantages of Casper direct water heater

Modern design design

Casper direct water heater features a compact, luxurious and extremely modern design. Own the main white color with rectangular design for a sense of certainty and closeness. Products will be one of the options to highlight your bathroom space.

Breakthrough in technology

The outstanding feature of the Casper direct heater is that it is equipped with a large magnesium bar that increases the durability of the battery and protects the user from the risk of electric leakage. Besides, the ability to heat water faster thanks to the 2500W high-power heating bar.

Reliability and high safety

Casper direct water heaters have enameled containers with a diamond component that helps to increase the service life of the container and prevent the corrosion of water and ensure maximum product durability. Not only that, this enamel also has the ability to prevent some bacteria from harming the skin to help protect the health of users.

In particular, the product also applies the 2-in-1 Thermostat technology to help double the level of safety. In addition, it is an ELCB anti-electric shock function capable of automatically disconnecting within 0.05 seconds when detecting a leakage or in case the current exceeds 15mA. Therefore, you absolutely can be assured of the safety when using the product.

Energy saving

Another special feature of the Casper direct heater is that the burner is improved with 100% pure copper material that helps to heat quickly, extending the service life by more than 50% compared to pine stainless steel usually for durability. The machine is also integrated with advanced DC power pump to help save energy and durability.

Reasonable price

Products Casper direct heater is quite cheap, only about 2,390,000 VND - 3,390,000 VND, so it can meet the needs of different users. Genuine warranty period for Casper water heater products is 12 months.

Introducing the top 2 of Casper's most favorite direct water heaters

Water heater directly Casper EN-45TH11 (with booster pump) - Reference price: 3,390,000 VND
