About design style

Lifetrans CM-100 possesses a relatively delicate, compact design (weighing 300g) with a two-piece structure: the body and head of the massage face. The body is made of high quality white plastic, above it has a control button, a grip and a position to insert the battery. In terms of design, Lifetrans CM-100 achieved 9/10 points.

Sophisticated and compact design of the Lifetrans multifunction massage face wash machine

About the features

Lifetrans CM-100 multi-function face wash machine uses nano ion technology and intensive facial care technology. The reason this product is called a versatile device because it not only washes face and massage, it also helps you take care of your teeth thanks to a flexible removable tooth brush.

Lifetrans CM-100 can fly plaque, returning bright white to teeth with modern negative ion technology. Not only that, it can create about 12,000 vibrations each time to deeply clean the face, massage to relax, nourish and restore skin thanks to low frequency sound waves 200 times / minute. The use of this device is also quite simple, does not cause much difficulty when it is the first time you use.

Lifetrons CM-100 operates on modern technologies

About selling price

The current selling price of the face wash machine Lifetrons CM-100 multifunction massage is about VND 1,490,000. This is a mid-range price. Although more expensive than some of Beurer's washing machine lines, Lanaform, Hue Life, Lifetrons CM-100 is clearly superior to design and features.

When considering the 3 design criteria - features - price, it is clear that Lifetrons CM-100 multi-function face washer is worth your choice. You can buy this product at the best price at META.vn.
