1. **About the functions of the machine** : Brother 2701DW is a multifunction laser printer with 4 functions in 1 machine. The machine can perform all the basic tasks necessary for the operation of an office

including: Black and white printing, photocopying, scanning (black and white scanning and color scanning), fax. In particular, the machine also supports automatic 2-sided printing and Wifi connection to help office jobs get done easily, quickly and more conveniently.

2. **About printing function** : The machine is capable of printing relatively fast with 1-sided printing speed of 30 pages / minute and 2-sided printing of 7.5 sheets / minute. The resolution of the printouts when HQ1200 technology is applied will be equivalent to 2,400 x 600dpi, ensuring the print is clear, sharp and professional. With a standard input tray that holds up to 250 sheets, supports the use of high-performance ink cartridges, and automatic 2-sided printing, you can rest assured printing quickly without having to add paper Frequent ink or must be next to the machine to flip the paper as well as can save printing costs extremely effectively. In particular, the tray of the machine can help you print more envelopes and many other types of paper to handle office tasks extremely convenient and professional.
3. **Regarding photocopying function** : Brother MFC L2701DW multi-function printer comes with photocopying feature to help you copy documents quickly with the ability to copy multiple documents at the same time and takes the first time to take less than 10 seconds. Document copy quality is up to 600 x 600dpi so it will be very sharp. Besides, you can also customize and zoom documents in the range of 25 - 400% to best meet your needs.
4. **About the scanning** : The Brother MFC L2701DW all-in-one printer has both scanning functions in accordance with many different standards. Maximum optical resolution of the device up to 600 x 2,400dpi and 24-bit output color depth bring the quality of images after scanning with relatively good definition and detail, supporting easy editing. still ensure not too large file size.
5. **About the fax function** : With the Brother 2701DW printer, you can also perform quick document faxing tasks with modem speeds of up to 33,600 bps. The device supports a lot of features such as speed dial, turn off, auto redial . and has a large transmission memory so faxing documents will become easier.
6. **Compatibility** : The L2701DW Brother printer is compatible with many Windows and Mac OS operating systems, can connect via USB, LAN, Wi-Fi wireless network as well as support use with a variety of paper types and paper sizes.

The Brother MFC L2701DW multifunction laser printer is highly compatible.

Conclusion: Advantages and disadvantages and when should you use Brother MFC L2701DW multifunction printer?

Advantages of the Brother MFC L2701DW multifunction printer : Has a variety of functions, compact design, saves usable area and equipment procurement costs; perform printing, photocopy, scan and fax operations quickly; document quality after print, scan, copy clearly; Can print multiple times continuously; low operating costs; Support automatic 2-sided printing and convenient Wifi connection.

Cons of the Brother MFC L2701DW multifunction printer : Does not support color printing; The scanning and faxing features are not really excellent when compared to specialized machines.

The Brother MFC L2701DW multifunction printer is therefore suitable for use at home, small and medium offices that need to do all the printing, scanning, photocopying and faxing jobs but are limited in area and Initial investment costs, the need to print documents quickly and continuously, does not require the quality of scan and fax jobs too high.
