Komasu power plug KM48T

Should I buy an office lunch box Komasu KM48T?

If you still haven't found a suitable office lunch box, why not choose Komasu KM48T? This plastic lunch box possesses many outstanding advantages that many product lines on the market today do not have:

1. Compact design, with convenient carrying bag
2. A sturdy lid combined with rubber gaskets prevents food from spilling, spilling out when moving or bumping.
3. Fast cooker capacity: Just plug in for 20-25 minutes, you will have a hot meal right at the office.
4. Made from high quality PP, heat resistant, good strength. The product does not contain BPA, so it is very safe for users.
5. Power saving: Komasu KM48T power plug box has an operating capacity of 40W so it will not consume too much electricity.
6. Capacity of large compartments, allowing you to store a lot of food at the same time.

Komasu lunch box KM48T is made from high quality plastic

How to use Komasu KM48T rice cage pair

Step 1 : Put cooked rice and cooked food into the respective compartments.

Step 2: Place the compartments that have food in the meeting, cover the lid and install the latch.

Step 3 : Warm up food

Open the top vent, pull the end of the cord and plug it into the power outlet. When plugged in, the light on the lunchbox will light up, the food and rice inside will start to warm up.

Note: It is recommended to start reheating food before meal time for 20-30 minutes.

Notes when using Komasu lunch box KM48T

1. Unplug after completing heating food to ensure safety
2. Wash the food compartments and covers, avoiding the smell of food. Note that iron brushes and strong detergents should not be used.
3. Do not wash the box under the water directly; instead, use a clean, soft, slightly dampened tray to clean off the dust.
4. Always open the vent cap when reheating food
5. Do not sterilize Komasu power plug box KM48T at high temperature
6. Do not use the product in the microwave or put it in the freezer

Do not use KM48T rice container with microwave oven
