However, you still have questions: Is the quality of the GoPro Hero 7 Black camera really as good as the "rumor"? How much is this product? How to use this dashcam for standard? These questions will be answered by Quantrimang through the summary article below.

## **Should you buy a GoPro Hero 7 Black camera? User detailed device instructions**

1. 1. Should I buy a GoPro Hero 7 Black camera to use when traveling, traveling?
2. 2. GoPro Hero 7 Black action camera manual
  1. Accessories included
  2. How to install the GoPro Hero 7 Black camera
  3. GoPro device user guide
3. 3. Should I buy the old GoPro Hero 7 Black camera?

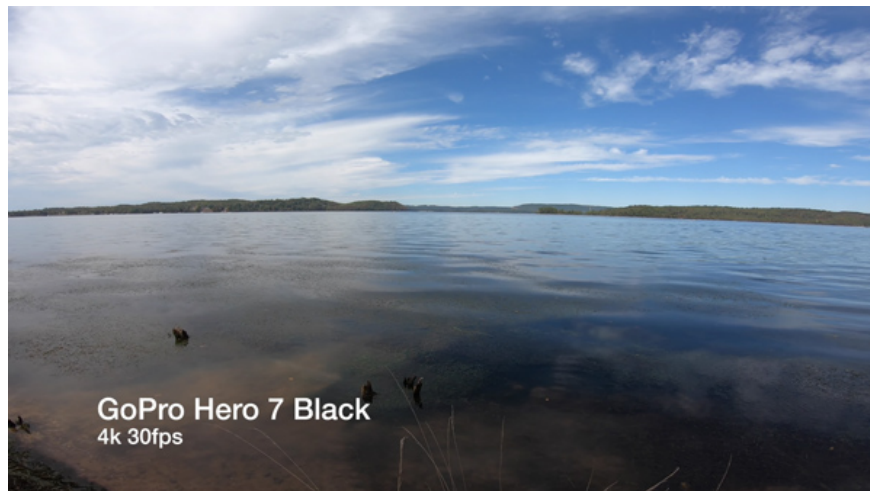

### **1. Should I buy a GoPro Hero 7 Black camera to use when traveling, traveling?**

Should I buy a **GoPro Hero 7 Black camera** to use on trips, trips or picnics? The benefits of using this cruise recorder will be the answer to your questions.

### **Image quality in 4K**

The GoPro Hero 7 Black Camera is one of the ideal digital devices for capturing travel, traveling with ultra-sharp picture quality. GoPro Hero 7 Black is capable of 4K video recording with a frame rate of up to 120 frames per second. Therefore, every memorable moment of your trip will be recorded completely and completely through the compact GoPro camera.

Aside from being a high-quality action camera, GoPro Hero 7 Black is also suitable for YouTube video content creators. This useful device supports various recording features such as:

1. Capable of recording 4K Ultra HD video at up to 60 frames per second (fps).
2. The ability to record slow motion with a frame rate of 120fps, supports Ultra HD 2.7K resolution.
3. Supports super slow motion recording at 240fps, Full HD 1080p resolution.
4. Capable of capturing still images with a resolution of 12MP, up to 30 images per second at a time.

### **Water resistant, anti-vibration**

A special feature of GoPro Hero 7 Black compared to other dashcam devices is its ability to record underwater. This digital device can be used underwater up to a depth of up to 10m. The camera's water resistance is further improved if you use the device with a GoPro camera case accessory (supports recording at a depth of 60m underwater).

In terms of anti-vibration, GoPro Hero 7 Black can predict your movements and automatically adjust the camera's vibration. This gives you smoother, more professional shots, regardless of whether you are driving or moving in any rough condition.

### **Smart voice control feature**

Voice control is another great feature of GoPro Hero 7 Black. With hands-free mode, you absolutely can ask GoPro camera to perform simple commands such as: Starting the device, turning off the device, recording, taking photos, switching modes from recording to taking photos, . .

### **Integrated many unique shooting and photography features**

GoPro is a video capture device that integrates many unique features such as:

1. **Time-lapse:** The ability to take continuous shots of multiple shots and then merge them into one complete video.
2. **Parorama:** 360-degree photography that helps capture the entire scene of the object, suitable for use in scenic trips, historical sites.
3. **Varied filter library:** You can use the filter library to edit videos and photos to suit your artistic intent (such as vintage, minimalistic, brilliant, romantic, .).
4. GoPro Hero 7 supports users **to connect to mobile devices** to access photo library or perform live streaming.
5. In addition, GoPro can automatically focus photos through **smart face detection** . The timer is also integrated in the device, making it easy to take a selfie or take a picture with your companions.

You can refer to the camera's time-lapse feature through the video illustrated below:

## Support many accessories used with the device

To experience the device to the fullest, the manufacturer of the GoPro video recorder offers a variety of handy accessories, which can be used with the same device as:

1. The dual charging device for GoPro camcorders can help you charge 2 batteries at the same time.
2. The GoPro Shorty tripod mount holds the GoPro camera on the ground.
3. The Handler tripod mount acts as a float for the GoPro camera when you record underwater.
4. Waterproof GoPro Super Suit camera case.
5. GoPro camera mount kit on helmets, cars, motorcycles, .

Besides the outstanding advantages, GoPro Hero 7 Black also needs to overcome the following drawbacks:

1. Battery life is one of the biggest drawbacks of GoPro Hero 7 Black. When users use the 4K continuous shooting function, this device usually operates for a period of 1 to 2 hours. However, you can use the GoPro AADBD-001-EU dual charger accessory (or backup charger) for the camcorder with relatively fast charging time.
2. When using waterproof case, the touch screen of the device may be delayed or have to press 2-3 times to receive orders. In this case, you can use the voice control feature to use the device.
3. The price issue is also a factor that makes users fret when deciding to buy GoPro Hero 7 Black. Currently the price of this device in the market is 10,700,000 VND. However, you can buy genuine GoPro Hero 7 Black at a cheaper price on some e-commerce platforms.

Concentrated, the GoPro Hero 7 Black cruise camera is an ideal device for you to use in traveling, traveling on motorbikes and cars with the following advantages: Ultra sharp 4K image quality; vibration and water resistance; intelligent voice control; Various accessories included; .

## 2. GoPro Hero 7 Black action camera manual

### Accessories included

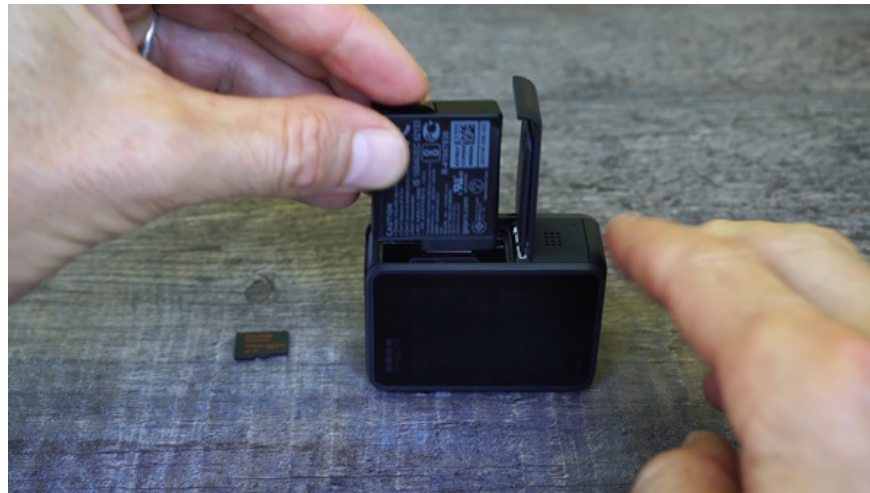

When buying a GoPro dashcam, you will receive the following accessories:

1. A camera mount is used to attach a tripod or selfie stick.
2. 1 battery.
3. 1 micro USB cable is used to connect the charger.
4. 1 waterproof case for camera.
5. Camera user manual.

## How to install the GoPro Hero 7 Black camera

**As a first step** , you need to insert the battery and memory card into the device. The pin position is located at the bottom of the camera. You press and slide your finger to the left, the battery compartment and memory card in the machine will appear.

Then, install the battery and memory card according to the instruction manual supplied with the device.

**The next step** , you connect the power cord to the device. In the right corner of the camera, you press and push the button to open the mini USB cable slot with the device. When the camera is connected to the charging source, the front of the camera will blink red LED continuously.

**GoPro device user guide**

To start the GoPro camera, press the power button on the left side of the device. When the red LED in the corner on the front of the camera flashes, the device will automatically start and display the GoPro logo.

On the first boot, the system will ask you to connect the GoPro dedicated app on iPhone and Android phones. You then follow the instructions on the mobile device to complete the connection process.

In addition, the first start screen also allows you to set the settings for other features such as: GPS connection, turn on / off Wifi, control device by voice, .

On the camera display screen, you can read parameters such as: Camera mode (recording or taking pictures), battery capacity (how many% is out of battery), image zoom, image quality, . .

To switch from recording mode to taking photos, time-lapse, panorama, .., you swipe the screen left or right to select the corresponding feature.

To start taking photos or videos, click the button with the red circle icon on the top of the camera or use a simple voice command: *GoPro, take a photo / start recording* .

### 3. Should I buy the old GoPro Hero 7 Black camera?

Buying a used GoPro Hero 7 Black camera can save you a relative cost compared to a new device. However, using an old machine also means that you will face risks such as:

1. You may have to pay the full amount for repairing or replacing accessories inside the device (due to the device's warranty period).
2. Performance will no longer be at the maximum level as new machines used.

Depending on your financial condition, you can choose to use new or used equipment. According to Quantrimang, you should choose to buy a new GoPro Hero 7 Black camera on the market to be able to make the most of its performance and receive warranty, support from the manufacturer when the device has a problem or failure.

Hopefully, the information Quantrimang shared above has helped you have a more specific view about the GoPro Hero 7 Black camera and how to use this device. Thank you for watching the article!
