Is Sunhouse air conditioning fan good?

Sunhouse brand is well-known in the Vietnamese market with smart and modern household electric products, in which there are typical types of air-conditioning fans. Sunhouse air conditioner is highly appreciated by consumers with advantages such as:

Compact, modern design: Sunhouse Coolers possess colors and subtle, beautiful designs. They not only help cool the summer but also contribute to the comfort of your home.

High cooling efficiency, power saving: Most Sunhouse cooling fans have a capacity ranging from 50W - 170W and large capacity water tanks. As a result, the device can quickly reduce the room temperature to about 15 degrees Celsius without consuming too much electricity.

Easy to use: Many Sunhouse air cooling fans are equipped with sturdy wheels, allowing users to move to any location. In addition, Sunhouse air-conditioning fan comes with a convenient remote control.

Good for health users: Sunhouse air coolers use steam to lower the temperature, so they don't dry out the skin. Besides, the device also has the ability to remove dirt and bacteria in the air thanks to the negative ion creation function. Some high-end product lines are also equipped with mosquito repellent function, the wind function sleeps, .
