

A breakthrough with AI with the new Next-gen AI laptop HP OmniBook Ultra Flip 14

AI technology and now Next-gen AI is one of the current technology trends. Leading that trend, HP launched the next-gen AI laptop generation with the representative HP OmniBook Ultra Flip 14, redefining the way users create and work. What will a day be like when you maximize the power of AI from this laptop?

Unique innovation, breaking limits and endless potential of Next-Gen AI

New generation laptops always come with expectations for superior experiences. HP OmniBook Ultra Flip 14 not only meets but also enhances those expectations, with a series of special features that optimize performance and flexibility. Belonging to the Copilot+ PC line, the device integrates the most advanced AI technology from HP in 2025, marking a new turning point in the modern technology era.

With Intel® Core Ultra processors up to 48 TOPS, the HP OmniBook Ultra Flip 14 is equipped with dedicated and personalized AI capabilities, helping to automate complex tasks and optimize workflows, significantly reducing daily workloads. Combining the superior performance of Microsoft AI Copilot+ PC in Windows 11 and an optional Stylus, this laptop provides a seamless creative experience, allowing users to freely express their ideas through every stroke, content or image with ease and precision.

Users will enjoy the ultimate experience with a sharp 14-inch 3K OLED touchscreen, 16:10 aspect ratio and flexible refresh rate from 48-120Hz, providing excellent display quality in all lighting conditions. Designed for trendsetters, the HP OmniBook Ultra Flip 14 offers three optimal modes: Laptop for outstanding performance, Tablet for creativity, and Tent for vivid entertainment. All to perfectly meet all needs, enhancing modern lifestyle.

The HP OmniBook Ultra Flip 14 takes the worry out of storage space while you're creating. With free Office 365 and 100GB of built-in Cloud, you can easily keep up with your work without worrying about space. Take advantage of this convenience so you can focus on unleashing your full creative potential.

Stable connection, optimal security – Comprehensive experience from sound to image

In the era of remote work and online meetings, the HP OmniBook Ultra Flip 14 delivers a great collaboration experience with a 9MP AI-powered camera that delivers sharp images even in low light conditions. Poly Camera Pro software optimizes every video call, automatically adjusting lighting, reducing noise, and blurring the background, helping you always appear professional and impressive in every meeting.

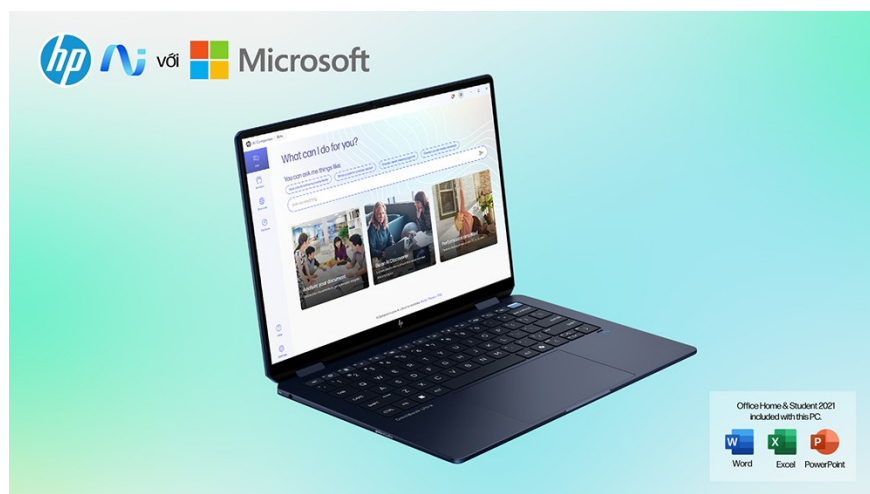

Imagine sitting in a noisy coffee shop or traveling on the subway – where the lighting is not ideal and noise can interrupt an important meeting. With the HP OmniBook Ultra Flip 14, you will always appear perfect to your partners thanks to optimized images and deeply processed audio. Combined with super-fast Wi-Fi 7, you will no longer worry about interruptions or signal loss in the middle of the conversation, helping you shine in every online meeting and build credibility at work.

In the digital age, personal security is essential. The HP OmniBook Ultra Flip 14 not only enhances the collaboration experience, but also provides absolute peace of mind with HP Wolf Security, protecting personal data from cyber threats. From a dedicated security chip to automatic system recovery, this device ensures that all your online meetings and important work are always fully protected.

Discover limitless potential in work and creativity with HP AI Companion

Understanding the needs and habits of users in the busy modern life, HP launched a new generation of AI machines, featuring the HP OmniBook Ultra Flip 14 and HP AI Companion assistant. This intelligent tool is designed to personalize the experience, helping users discover, analyze and manage device performance quickly and effectively. Whether you are a business manager with a busy schedule or a multi-tasking freelancer, HP AI Companion will be a reliable companion, supporting information search, data summary and flexible work optimization, minimizing pressure in all situations.

The HP OmniBook Ultra Flip 14 not only helps users overcome every deadline but also creates the ideal balance between work and life. With up to 20.5 hours of battery life and the ability to fast charge 50% in just 45 minutes, the device provides all-day comfort without worrying about plugging in. This gives you more time to focus on what matters and enjoy every moment of life.

The HP OmniBook Ultra Flip 14, HP's next-generation AI-enabled flagship, is the ideal companion for all your work, study and entertainment needs. With its flexible design, superior performance and advanced artificial intelligence, this device not only optimizes work efficiency but also redefines modern lifestyles, where technology integrates into everyday life, intelligently and harmoniously connecting people and technology.
