3. PUBG Mobile Zombie: Synthesis of new weapons and how to find them

## A few tips for playing Zombie PUBG Mobile mode for newbies

### 1. Swimming

If you are near the river and you encounter too many zombies, jump into the water and swim, they will not dare to chase you because they cannot swim. At that time, swim to another area, noting that you can still spit poison gas on Spitter, so swim away and see where they spit and avoid it.

## 2. Do not hide in the house when it is dark

Unless you follow the team and have a sufficient amount of ammunition to fight, if you go alone or with 2 people, don't fool yourself into the house. Zombies will rush in and make you, especially when it is dark, they are very crowded and aggressive, so if you're alone, go out and face your fears.

One more thing, when it is still bright, the amount of zombies is very small, so make a lot of real loot to save for the evening. If you encounter any zombies, use a dagger to slash them, save bullets, but you can also get another round of bullets, usually if you kill zombies, you will have at least 60 capsules of all types. Normal bullets and only gas cylinders are 100 only.

## 3. Occupy high scores

The high point here is not on the hill, the roof, on the tree but in the wooden boxes, why firstly if you are on the roof, you will still be sprayed with blue poison gas from the Spitter, but when it is dark you will not be able to see where they stand, can only be determined by directing them to release toxic gas.

It's still the same on the hill, and on the tree that's not very feasible, it's only safer on the roof of the house. Because if you have Spitter, you can still see and destroy them easily. Moreover, in such boxes, the chances of

you getting less damage and being able to headshot zombies easily.

However, there are two disadvantages that you have to deal with, which is that you cannot loot the zombies and worse, the blood is eaten. Out of bullets, you will have to jump down the loot to continue firing. So if you decide to jump up here, prepare a lot of bullets, and if you get caught, you only have to jump down and run.

#### 4. Backpack is not a worry

Just 1 backpack 1 is enough for you to loot a lot of bullets and recovered items, 1st backpack in Zombie mode: Survive Till Dawn has capacity even more than the 3rd Backpack in mode normal survival, so you don't need to worry about not finding a backpack 2 or backpack 3 in this mode.

#### 5. Hunting "New Zombie"

This literally means a "fat" prey because the rate of dropping Minigun or Flamethrower from this "belly" fat guy is very high, not to mention that it is easy to destroy them and they often appear in the morning, the time when Zombie has not appeared much so if you meet this "fat guy" on the road, do not be afraid to give him some copper candy on him.

In addition, he is "summoned" by throwing a zombie grenade out, waiting for a while and you will see him crawl from the ground at the location of just throwing a grenade, and get two heavy weapons Then it is much easier to kill zombies.

## 6. Boss Tyrant

Absolutely not confront Tyrant while traveling alone, even if you are equipped with the strongest firepower game. This Tyrant boss will make the player miserable to flee because of the "terrorist" nature of the game. If you have armor or not, you'll end up with only 4-5 Tyrant punches.

Not to mention the fact that he was still picking up land and throwing it at the player's face, sticking to those shots would also be "badly" because the damage of the lumps of dirt would spread around the location where it fell. The Tyrant Boss does not seek out the player himself and you can prepare it before going to find him, preferably two or more people, and either of them must be equipped or Minigun or Flamethrower.

## 7. Prioritize weapons to use 7.62mm bullets

As I shared above, just a backpack 1 is able to hold a lot of ammunition and items. So if you use weapons, look for one that uses the best 7.62mm bullet. Especially fast-firing weapons such as AKM, Beryl M762, Groza, DP-28, MK14 and MK47, and if you get a Minigun, you have to avoid the table.

Note that you should not hold two heavy weapons at the same time, one is to use Flamethrower in combination with an AR or Minigun with AR. Simply because both types of heavy weapons in the game are not equipped with Scope, but if they are attacked by enemies long-range, you will be very difficult to counterattack.

## 8. Find means to move

The zombies will not do anything to you when you are sitting in a UAZ or Dacia and glide like flying, but if you leave them outside and break the car, you will be in danger. A team in PUBG Mobile Zombie if you meet a four-seat vehicle, you must avoid the table.

You can use means to kill zombies, and with bosses you should not do so because it will cause the vehicle to fail. However, you and your team can still use the means for hit and run tactics with bosses.

There are a few simple tips initially in Zombie PUBG Mobile mode, although simple but if you use it in the game, it will be very effective, hopefully the above tips will help you win the TOP 1 in Zombie: Survive Till Dawn in PUBG Mobile.
