

A guide to making mosquito traps super effective

Do not use toxic chemicals or insect repellents that contain a lot of skin irritants, you can completely make mosquito traps with ...

The closer to summer, the more likely the mosquitoes will grow quickly. Many families are looking for ways to get rid of mosquitoes out of their homes, such as using essential oils in the Raw material to safely remove mosquitoes, or use other items in the lesson How to ban mosquitoes from Zika.

In the tutorial below, Network Administrator will give you an extremely effective way to catch mosquitoes when using homemade traps to catch simple mosquitoes. Materials prepared as well as how to do it is not difficult, so everyone can do it on their own. This homemade salt trap does not use chemicals, affects family health, so you can rest assured and start working with the Network Administrator.

Note that there are video tutorials at the end of the article!

Materials for mosquito traps

1. 1 1.5 L plastic bottle
2. About 50gr brown sugar.
3. Baking (Bread Machine or Yeast Bread) for baking.
4. Cup, knife.

Guide to making mosquito traps

Step 1:

Divide the plastic bottle into the head and body parts are not equal.

Cut plastic bottles into two equal parts

Step 2:

Put about 50gr brown sugar in the bottle body. Continue to give 200ml of boiled water to dissolve brown sugar.

Put brown sugar in a hot water bottle

Step 3:

After the brown sugar water has cooled down, add about half a teaspoon of baking powder to the sugar water.
Note not to mix the mixture even after allowing the yeast to hatch.

Add yeast to brown sugar

Step 4:

Turn the inlet part upside down inside the bottle body. Remember to remove the bottle cap.

Turn the bottle head upside down

So you have completed the mosquito trap. Mosquitoes and insects will be attracted by the aroma of Carbone Dioxide mixture, fly into the bottle and stuck there. Too easy to do right ?! By the ingredients available in the family and easy to prepare, you will create a mosquito trap that is safe, simple but extremely effective.
