

A simple way to link your Facebook account to Gmail

To increase PR recognition and level, the Gmail service allows users to create signatures for their accounts. This signature will appear at the end of the mail so that the mail recipient has additional contact information such as your address, phone number However, if you use only letters and numbers, it is easy to get bored with the recipient, you can add a Facebook account link to add more lively. Please refer to how to do below of TipsMake.com.

To increase PR recognition and level, the Gmail service allows users to create signatures for their accounts. This signature will appear at the end of the mail so that the mail recipient has additional contact information such as your address, phone number . However, if you use only letters and numbers, it is easy to get bored with the recipient, you can add a **Facebook** account link to add more lively. Please refer to how to do below of TipsMake.com.

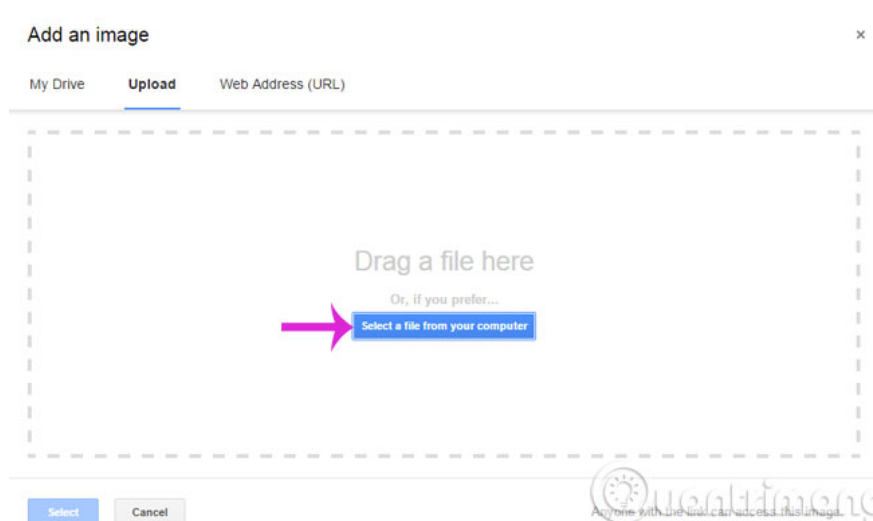

First, prepare a logo image of Facebook social network. Then, log in to your Gmail account, click on the **gear** icon and select **Settings** .

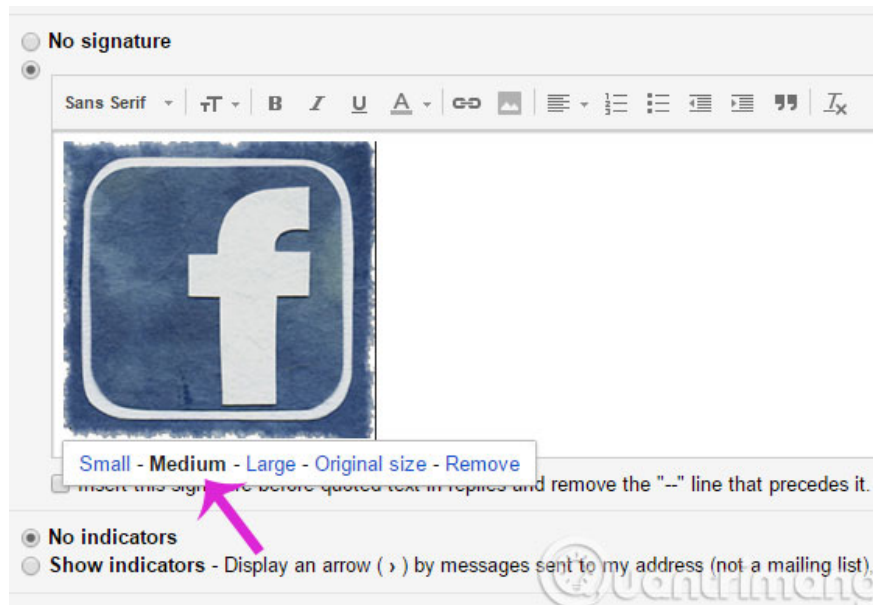

Next, drag down the **Signature** section and check the item to create a signature and press **Insert Image**

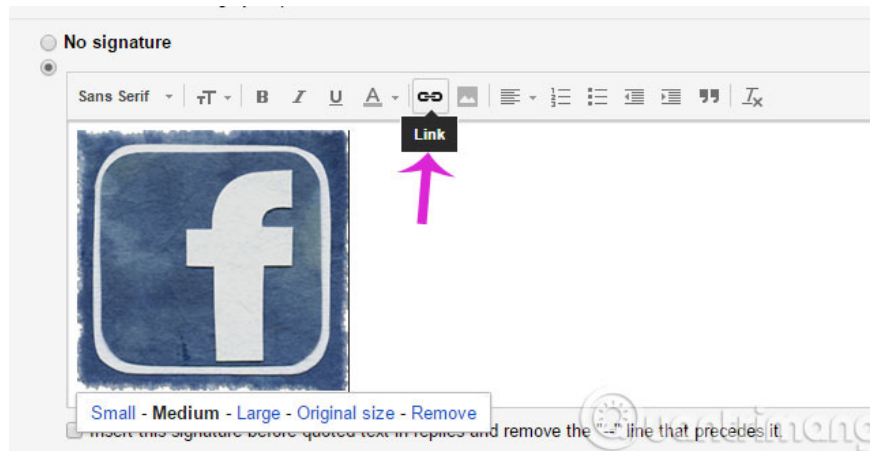

When the **Add an image dialog box** appears, select the image you want to upload

After that, you can adjust the size of the image with **Small - Medium - Large - Original size options**

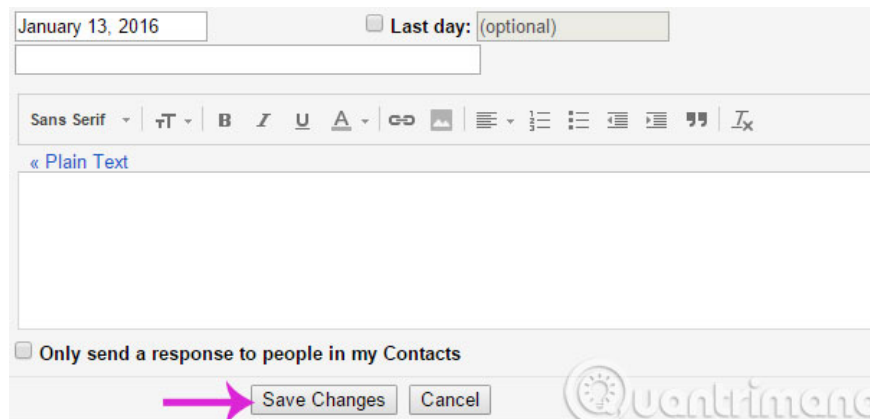

Next step, click on the picture and then click **Link**

In the dialog that appears, enter your display name and your Facebook address link and click **OK**

Finally, scroll down to the bottom of the page and click **Save changes** to save the changes.

With other accounts like **YouTube** , **Twitter** , the same way as above. From now on, your Gmail signature has become much more lively and others can learn more information about you already.
