

# Access to Yahoo! Mail and services on Google Chrome

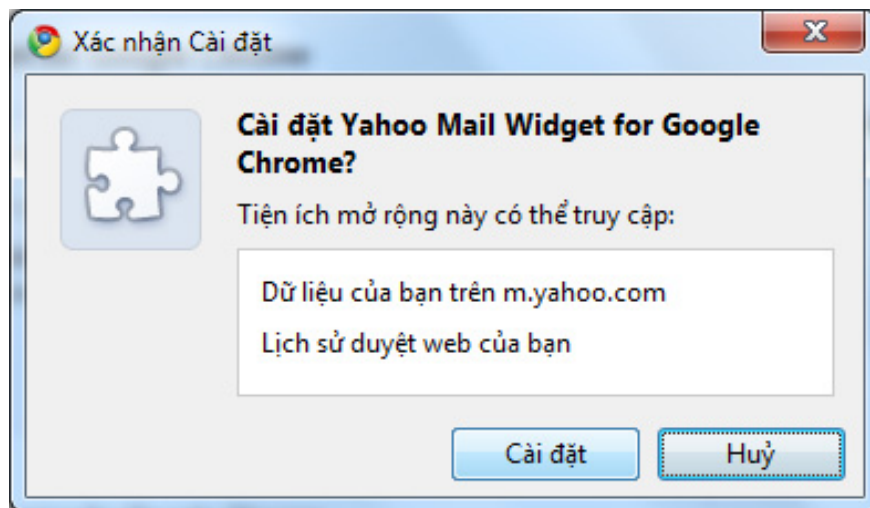

Are you interested in using Yahoo email and its services, or are you afraid to change to other email services? The following article of TipsMake.com will help you easily access Yahoo! Mail on Google Chrome.

**QuanTriMang.com** - Are you interested in using Yahoo email and its services, or are you afraid to change to other email services? The following article of TipsMake.com will help you easily access Yahoo! Mail on Google Chrome .

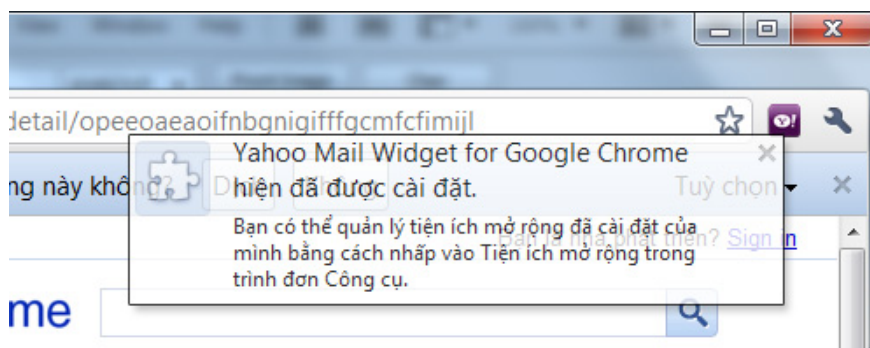

## Install the tool

Open your Chrome browser and access the following link. Click the **Install** button to install additional extensions

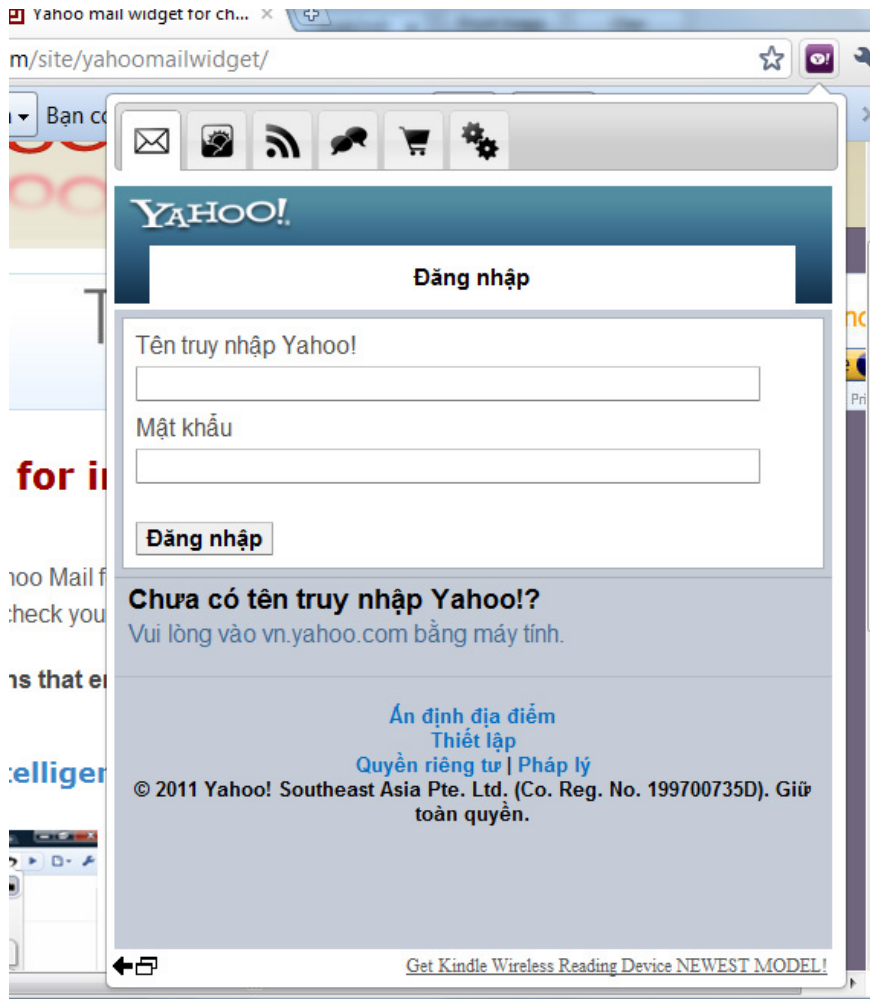

Click on Settings on the Confirmation window

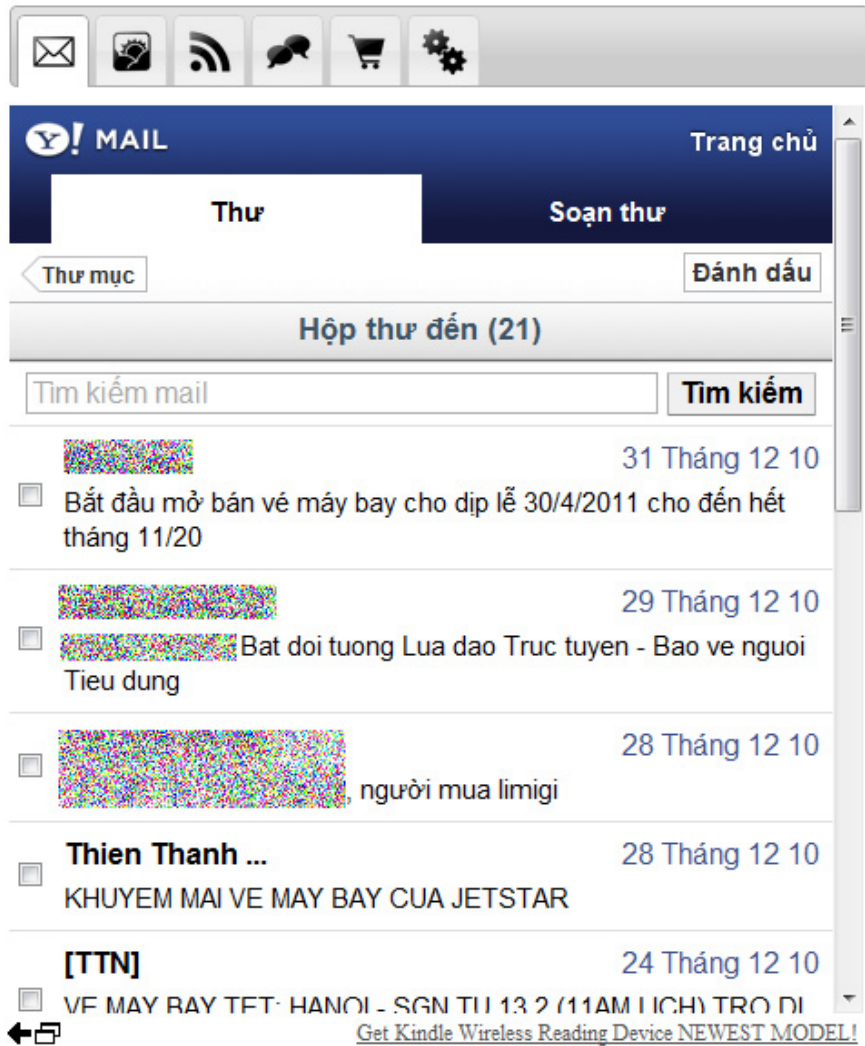

Notice that the utility has been installed

### **Access your Yahoo!**

If you have not logged in to your Yahoo account on your browser, you will receive a login interface as follows:

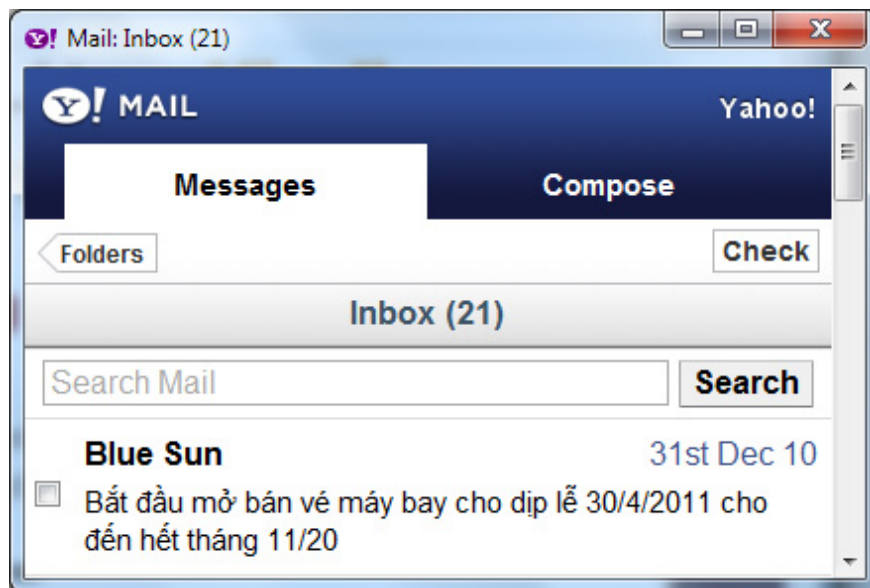

After logging in, you will be able to view the emails in the Inbox section

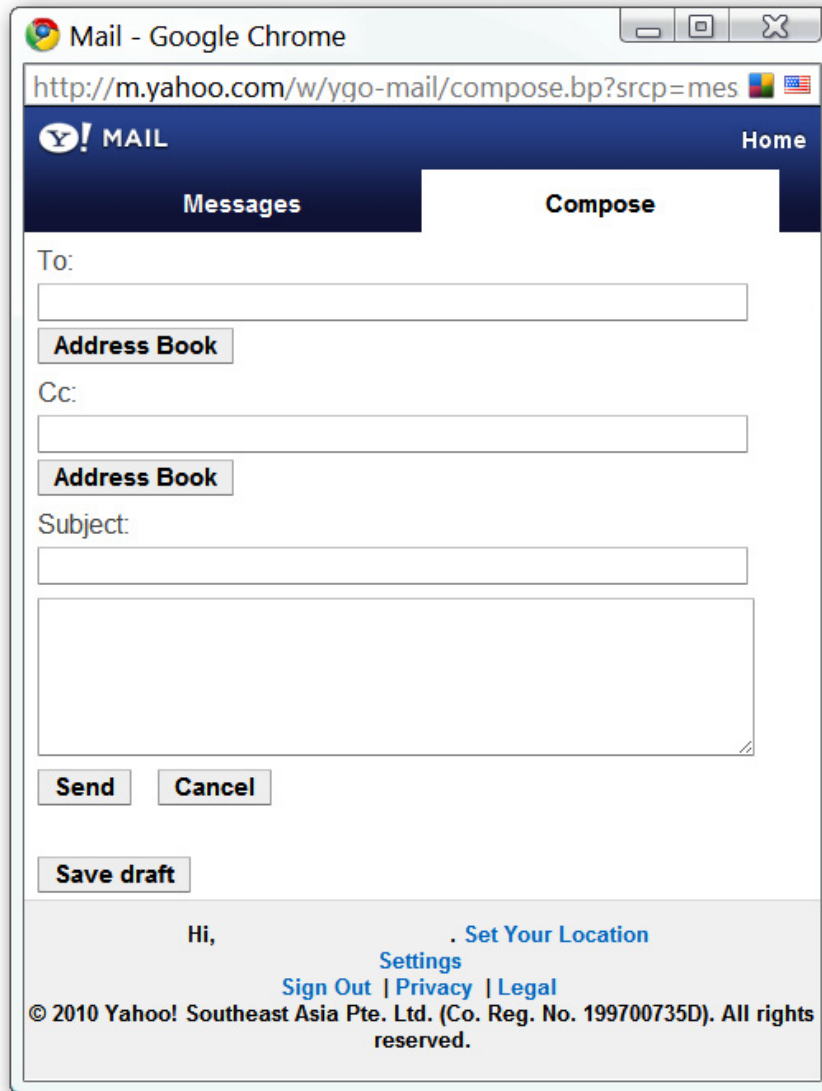

If you don't want to check email with a popup attached to Chrome, you can turn it into a separate window by clicking

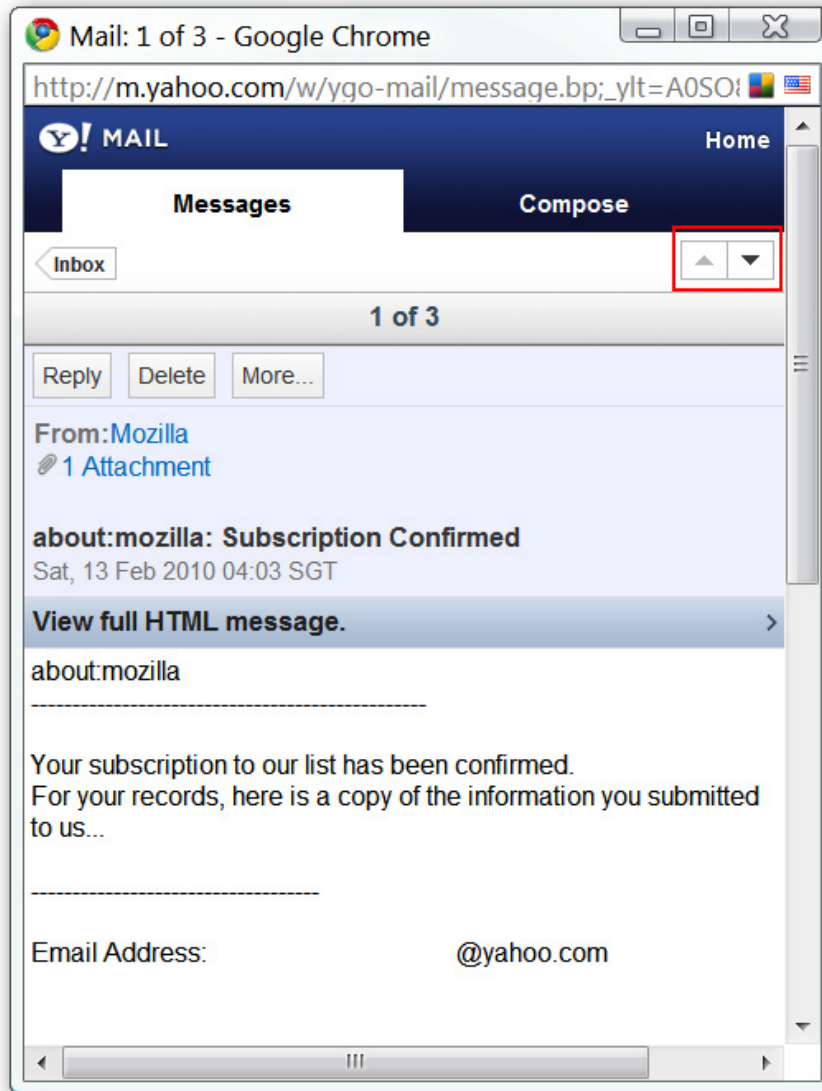

in the lower left corner of the Yahoo!

While reading a message, you can easily switch from one letter to another by using the up and down arrow buttons in the upper right corner of the letter.

The Compose mailing tab is also available for you to use with a fairly simple interface.

In addition, you can access other Yahoo services by clicking on the Yahoo! in the top right corner of the utility window.
