Acer introduced the new Aspire 4540G to use AMD processors for \$ 11 million.

The exterior design of Acer's Acer Aspire 4540G has a glossy blue finish, rounded corners for a soft feel and a striking Acer silver logo in the middle. The case has high resistance to scratches and less fingerprints. The connection port of the machine is rich and complete, arranged in the left, the optical drive on the right, reasonable when using. Radiator fan is arranged in the back to help the radiator effectively without causing the user to feel uncomfortable due to the heat of the exit machine.

Overall, the exterior design of the Acer Aspire 4540G is luxurious and rugged.

Acer designed the Aspire 4540G suitable for entertainment with a 14-inch mirror screen with a resolution of 1366 x 768 LED 16: 9 standard combined with Dolby Home Theater speaker system and surround sound, HDMI output and video card Discrete graphics ATI Radeon HD 4570, allowing full HD movie enjoyment on the device. In addition, the screen of the Aspire 4540G adopts Acer CineCrystal LED-backlit TFT LCD technology with 200-nit brightness for sharp images. Above the screen is a Crystal Eye technology webcam that can be used quite well in areas with low light.

The Aspire 4540G uses Acer's new design keyboard, which is wide in size, reasonable key distance, smooth keys, making it easy for users to use. On top of the keyboard are two Dolby home theater speakers, on the right are shortcuts including: WLAN, Bluetooth, backup, volume up. Multi-touch mouse drag table is arranged to the

left, between two mouse buttons with fingerprint reader, next to the mouse drag table has a toggle button, more convenient to use.

Acer Aspire 4540G with AMD processor combined with ATI Radeon video card.

The highlight of the device is AMD's hardware platform with the latest processor options for laptops from AMD, such as AMD Turion II Ultra dual-core, AMD Turion II AMD, Athlon II. The processing power of the Aspire 4540G is further enhanced by the ATI Radeon HD 4570 discrete graphics card, which has 512 MB of RAM available, allowing for maximum upgrades of up to 2,048 MB. ATI Radeon HD 4570 supports Microsoft DirectX 10.0, Shader Model 4 and is capable of HD movie resolution (MPEG-2 / DVD, WMV9, H.264) . RAM capacity 3GB-DDR2 can upgrade up to 4 GB of drive 500 GB SATA hard drive. This configuration helps the Acer Aspire 4540G run multi-tasking, meeting almost all needs of office users and game lovers.

In addition to the configuration and connectivity of the machine is also one of the advantages of the Aspire 4540G, such as 802.11b / g / N wireless, Gigabit Ethernet has a transfer rate of 1 Gbit / sec (1,000 Gbit / sec), Bluetooth 2.1 + EDR, 56K ITU V.92. With 6-cell battery capacity, the Acer Aspire 4540G can operate for nearly 3 hours. QuickCharge technology minimizes battery charging time. The Acer Aspire 4540G has good compatibility with Windows 7 with fully bundled drivers.

The Acer Aspire 4540G has 3 configurations for between 11 and 14 million VND (excluding VAT). Products are distributed by CMC Distribution Company (CMC Distribution)
