

Acer ConceptD 7 Ezel, 4K rotating flip screen, NVIDIA GTX GPU, priced from \$ 2699

At the CES event in Las Vegas, Acer recently introduced ConceptD 7 series of flip-screen computers for content creators.

At the CES event in Las Vegas, Acer recently introduced ConceptD 7 series of flip-screen computers for content creators.

ConceptD 7 Ezel laptops will come with a 15.6-inch screen fitted with a special two-part Ezel hinge that can be made into five different modes from traditional clamshell to tablet with an upside down keyboard.

The 15.6-inch 4K touch screen of the device has a maximum brightness of 400 nits, covered with Gorilla Glass 6 for durability.

The ConceptD 7 Ezel's screen is also friendly with the stylus. The Wacom EMR pen has the ability to simulate the usual brush strokes packaged with the product so that users can easily draw or write on the screen.

Acer says the ConceptD 7 displays have been calibrated to ensure that the colors match the PANTONE Matching System (PMS) before shipping.

Acer ConceptD 7 owns powerful configuration with 10-generation Intel Core H series chip, NVIDIA GeForce RTX GPU, up to 32GB RAM, up to SSD 2TB PCIe.

With a stylish design and powerful configuration, Acer ConceptD 7 is a great product for creative people, designers, videos, photos.

The product will be sold on the market starting from July 7/2020 for \$ 2699. ConceptD 7 Pro upgrade version with configuration including Intel Xeon CPU, ECC-enabled RAM costs from \$ 3099.

1. Dell launches a 42.5-inch 4K computer monitor for VND 24 million
2. Dell Latitude 9510 officially launched: 5G support, up to 30 hours of battery life
