

## Acer unveiled a new netbook

On the official website of Acer, there is an Aspire netbook model in the selection frame called Acer Aspire 532H.

**On the official website of Acer, there is an Aspire netbook model in the selection frame called Acer Aspire 532H.**

When downloading the driver in the Service & Support section on the user can easily see the new product after the Aspire item is (AO532H). However, this 532H machine has no further information about the drivers and configurations offered by the company.

The Acer Aspire 532H is likely to be one of the first netbooks to use the Intel Atom N450 chip.

According to Notebookcheck, Acer's new product can come with 10.1-inch screen with 1280 x 720 or 1024 x 600 pixel resolution. The latest processor is announced as Intel Atom N450 can also be integrated into the Aspire 532H with Intel GMA 3150 onboard video card, 1GB Ram, 10/100 Lan port, 3 cell battery, card reader, webcam 0.3 Megapixel, Bluetooth and pre-installed Windows 7 Starter Edition operating system.

Users may have more options for hard drives of 160 GB or 250GB. There is no information about the price and the time when Acer Aspire 532H will be available in the market.
