

Acer unveiled information about new high-end ConceptD laptops, exclusively for creative people

Acer has just officially announced the ConceptD product line, a new premium brand of Taiwanese laptop manufacturer, designed specifically for those who do creative work.

Acer has just officially announced the ConceptD product line, the new premium brand of this Taiwanese laptop manufacturer, designed specifically for those who do creative work. Basically, Acer took the form of its gaming laptop, added some tweaks and tweaks to turn them into devices that focused more on tasks such as editing and illustrating videos and specialized images. career.

1. More than 70+ Avengers: Infinity War wallpapers with high resolution for computers, laptops

This new product line is expected to include 3 models in 3 price segments as well as separate features: ConceptD 9, ConceptD 7 and ConceptD 5. In it, ConceptD 9 will be the flagship of ConceptD line, and follow the house. In Taiwan, the product was developed to serve specifically in tasks related to drawing and working with 3D graphics. ConceptD 9 owns a 17.3-inch 4K screen with Ezel Aero Hinge technology (similar to the one used on the high-end Acer Predator Triton 900 PC), as well as the integrated Wacom pen support.

1. First picture of Windows Lite, a compact operating system for 2-screen laptops

Due to being the most advanced product in the high-end segment, the hardware configuration of ConceptD 9 will certainly not disappoint you, with the 9th generation Intel Core i9 processor, up to 32GB RAM, RTX 2080 GPU and 512GB or 1TB of storage with NVMe SSDs. Besides, ConceptD 9 can also be considered as a product that Acer uses quite a lot of experience that it has gained from success with top-of-the-line gaming laptops on a product line aimed at completely new user icon, it's creators. For example, ConceptD 9 is equipped with 3D AeroBlade fan technology like on its flagship gaming products, while being supported with Wacom pens.

Speaking a bit about the 'junior' of ConceptD 9, ConceptD 7, this product is smaller in size with a 15.6-inch 4K screen and the specs of course will also be a bit lower. The 'heart' of ConceptD 7 is the 9th generation Intel Core i7 processor and 2 options of RTX 2080 Max-Q or RTX 2060 GPU. However, the plus points are the hard drive and RAM storage options. Equivalent to ConceptD 9. Also, since it is a product in the lower segment, ConceptD 7 will of course not be able to support some of the high-end features on ConceptD 9 such as the flip screen and the integrated Wacom pen.

1. The best laptop models for video editing 2019

Finally, 'the youngest' ConceptD 5. This product of course will have much lower specs (and perhaps selling prices) than the seniors, but to be fair, it is still a computer model is quite strong compared to popular devices on

the market today. Like ConceptD 7, ConceptD 5 also owns a 15.6-inch 4K base plate, but the CPU will stop at only two options, namely Core i7 and Core i5 (8th generation), along with AMD Radeon RX graphics card. Vega M ensures 'acceptable' graphics processing capabilities. RAM on ConceptD 7 is limited to 16GB or 8GB, with storage options including 256GB SSD, 512GB or 1TB.

1. CES 2019: The development trend of the laptop world

Overall, there are many things to 'love right away' on this new product line of Acer, which can be mentioned as modern design (big screen, no border, thin), great hardware power, and especially designed to provide maximum support for a certain work group, making it easier for users to choose the device that suits their usage needs. It can be said that the final piece to decide whether ConceptD is the most valuable computer in 2019 is the price, and it is true that Acer is always known as a manufacturer with valuable products. sell on very good performance.

Besides selling price, Acer has not given any other information about the release date or the open market specifically for this product line. We will inform you as soon as new information becomes available.
