

Actual photo of 4 upcoming smartphone models Vsmart, Active 3, Live 3, Joy 3+, Star 3

The website 4pda.ru in Russia has revealed smartphones that are about to be launched by Vsmart in the near future and posted some pictures of them. Specifically, these models including Vsmart Star 3, Vsmart Joy 3+, Vsmart Live 3, Vsmart Active 3 and Vsmart Bee 3 were launched in Vietnam on December 20.

The website 4pda.ru in Russia recently revealed smartphones that are about to be launched by Vsmart in the near future and posted some pictures of them. Specifically, these new models including Vsmart Star 3, Vsmart Joy 3+, Vsmart Live 3, Vsmart Active 3 and Vsmart Bee 3 were launched in Vietnam on December 20.

1. VinSmart launches Vmessage, a free messaging service like iMessage, FaceTime for Vsmart users
2. 5 highlights of the pure Vietnamese operating system VOS 2.0 on Vsmart Live
3. For the first time, Vietnam has a data center of international standard

A few days ago, the actual image of the Vsmart Active 3 model with a full-screen design, 3 main cameras, and a "protruding" front camera were leaked.

Based on the image above, many people predict that the first device from the left will be Vsmart Active 3, the second one will be Vsmart Live 3 or Vsmart Joy 3+ (3 cameras, traditional fingerprint sensor on the face). back and USB-C port at the bottom), the third one is Vsmart Bee 3 and the fourth is Vsmart Star 3.

In terms of design, all 4 new products of Vsmart have a similar back, all share the same design of the location of the fingerprint sensor, LED flash, Vsmart logo and vertical camera clusters on one. side.

These leaked information shows that Vietnamese mobile phone brand is about to launch a series of new products, covering all segments from mid-range to low-priced in the near future to reach more users.
