

# Actual photo of OPPO Watch: Brothers 'different father' with Apple Watch?

OPPO Watch has a 'learn' design from Apple Watch pretty much.

Today, besides the OPPO Find X2 and Find X2 Pro duo launched in China, the manufacturer also launched a new smartwatch and is also the first smartwatch of OPPO: OPPO Watch.

If you just look at it, many people will surely mistake OPPO Watch as an Apple Watch from the brand "Apple", because both have the same design with a square watch face with rounded edges. soft. Perhaps OPPO has learned Apple from design and realized that square watch face is most optimized for user experience as well as for the full display of content.

This is OPPO Watch

The device has a square watch face similar to the Apple Watch. This screen has a size of 1.9 inches for the 46mm version and 1.6 inches for the 41mm version. OPPO says this screen has a pixel density of up to 326 ppi and supports 100% of the DCI-P3 color gamut. In addition, the screen of OPPO Watch is also curved to the sides for swipe operation more comfortable

The charging dock comes with OPPO Watch

The back of the OPPO Watch is finished from 3D ceramic, which is also the place where the sensor and the charging pin are located. The strap of OPPO Watch uses a separate type that cannot be replaced with external bands

The OPPO Watch comes with VOOC fast charging technology, which can charge the first 50% battery in just 17 minutes

The device supports exercise regimes depending on the fitness condition of the wearer, even a menstrual cycle and pregnancy tracker for women. In addition, OPPO Watch will also support ECG and eSIM

OPPO Watch runs on Wear OS platform with a customizable interface

It has a battery life of up to 21 days in basic usage mode, with 5ATM water resistance

@数字尾巴

The OPPO Watch will have a starting price of VND 5 million for the 41mm version and 6.7 million for the 46mm version. The stainless steel version with sapphire glass is more expensive than 8.4 million
