

Adamo's 'juniors' reveal photos

Dell has yet to confirm the launch of the Latitude Z, but this model has an Internet image with a slim design, like Adamo.

Dell has yet to confirm the launch of the Latitude Z, but this model has an Internet image with a slim, Adamo-like design .

According to the first images, the Latitude Z has a 15-inch wide screen, which includes a face-recognition webcam, running on a Core 2 Duo processor.

The design of the Dell Latitude Z has many similarities with Adamo, the device is quite compact, equipped with DisplayPort, eSATA, removable batteries. This model can run on Intel's Centrino 2 platform and Windows Vista Basic operating system (without the Aero interface).

Here are a few pictures of Dell Latitude Z.
