Now it is extremely easy to download videos on Youtube or download videos on Facebook, when there are many tools and services that support downloading videos. In today's article, the Network Administrator will introduce you to an online video download site, KeepVid.

KeepVid is a website that supports users to download video or audio at any website, from Youtube, Facebook, Instagram, . more than 10,000 video sharing sites. We do not need to install KeepVid on the computer, simply download the operation via the URL of the video and then click the Download button. In particular, KeepVid also provides a lot of video formats with capacity for users to choose. To know how to download YouTube and Facebook videos on KeepVid, readers refer to the article below.

## Step 1:

First of all, we will visit the homepage of KeepVid under the link below.

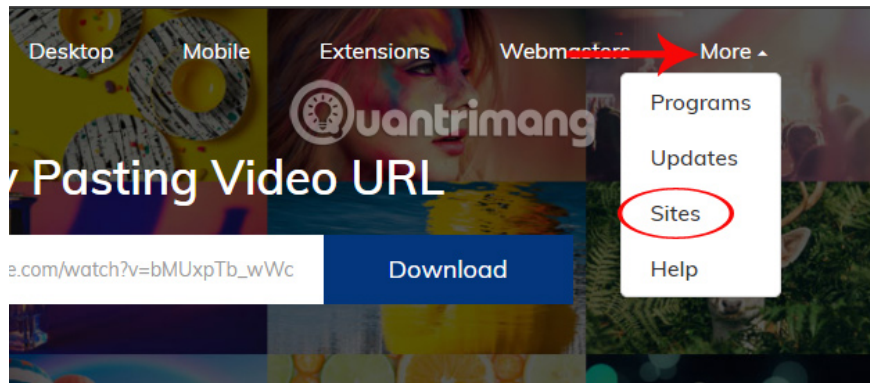

1. <http://keepvid.com/>

## Step 2:

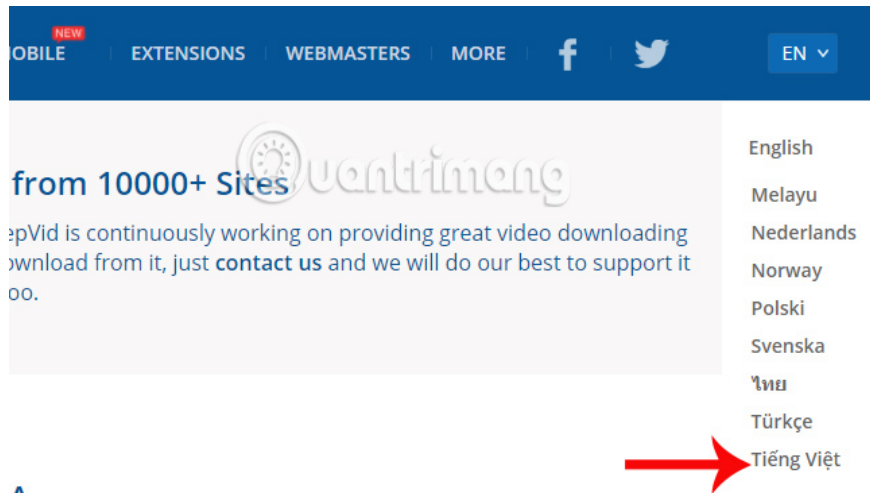

At the home page interface, you will see the video sharing website that KeepVid supports downloading videos like Facebook, Instagram, Vimeo, Dailymotion, Hulu, Break, Metacafe, BlipTV, Vimeo, AOL, Lynda, MegaVideo, Veoh, TV.com , Veevr, Adobe TV .

In addition, the website also supports users to switch to Vietnamese language to use. Click on the **More button** above and select **Sites** .

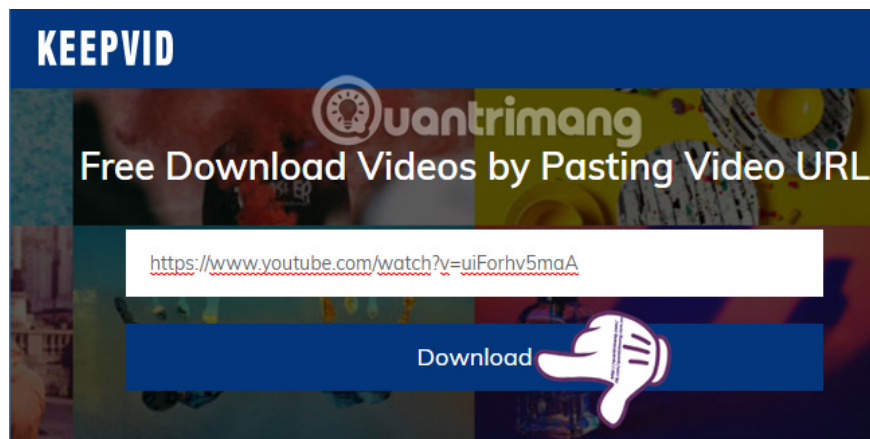

Default KeepVid will be in English language, to switch to other languages ??we choose **Vietnamese** to use.

### Step 3:

Go back to the interface of KeepVid, we will **copy the URL of the video** into a white frame, then click **Download**.

### Step 4:

To the new interface, users will see details about the video including the name, format, duration, and capacity of the video. It can be seen, KeepVid supports a lot of different video formats. MP4, 3GP, WEBM formats with **full HD 1080P (Pro Version)** and 720p, 480p, 240p, 360p, 240p and 144p formats.

We can download videos at 240p to save storage space on the device.
