It is the masterpiece for life of ancient Egypt with unique ancient architectural style. These buildings have a history of thousands of years old and still exist today.

The Great Pyramid of Giza, the Great Sphinx, the Luxor Temple, Mortuary Temple of Hashepsut . anyone will be attracted by the beauty, the grandeur of these ancient works.

The Great Pyramid of Giza, also known as the Cheops Pyramid or Khufu, is the tallest, most famous pyramid in Egypt. Ancient Egyptians spent 20 years and more than 2 million blocks of stone were built to build this great building. The Giza pyramid in the cluster of 3 pyramids was built as a tomb for Pharaoh Khufu.

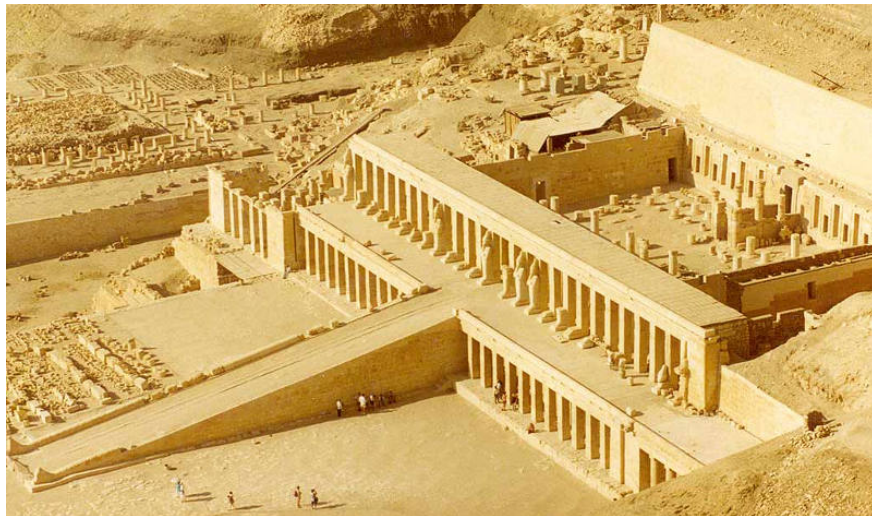

Great Sphinx statue, this 73.5m tall Sphinx statue is located in Giza Plateau, near the Great Pyramid of Giza. This is a statue carved from the world's largest monolith, carved the first creature of a lion.

Khafre pyramid, also known as Chephren, is 136,4m high. This is the second highest pyramid, after the Great Pyramid of Giza and built as a tomb for Pharaoh Khafre.

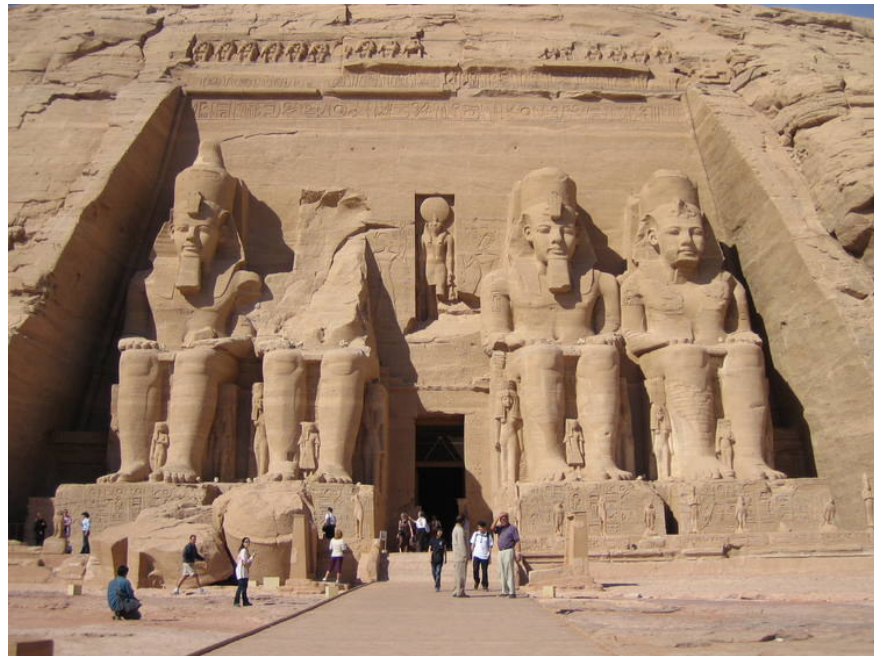

Luxor temple was built in 1400 BC. Located on the East bank of the Nile, the temple is a place to worship three gods of ancient Egypt, Mut, Amun, Chons and the festival of Opet.

Mortuary Temple west of the Nile River, under the cliffs at Deir el Bahari is the place to worship Queen Hatshepsut and Amun. The temple is designed in a column structure with three terraces with a height of 30m connected to each other by a steep road.

Karmak is a relic site about 2.5km north of Luxor, it consists of 3 main temples and many small temples outside. This is the oldest and largest religious monument in the world built by Pharaohs in the range of 157 - 1100 BC.

The Abu Simbel monument was built by Pharaoh Ramesses during his reign in the 13th century BC. Located on Nasser Lake, south of Egypt, this monument consists of two massive stone temples. Outside the façade are four giant statues of the king, each about 22 meters tall.

With a height of 104, the Red Pyramid ranks fourth among pyramids in Egypt and is also a pyramid with a unique smooth surface. This is the pyramid built by Pharaoh Sneferu.

The 62m-tall Djoser's terraced pyramid is the first pyramid of ancient Egypt. Located in Saqqara graveyard, this pyramid was built by Vizier Imhotep, the prime minister, to bury Pharaoh Djoser during the 27th century BC. This work includes a tangled tunnel and many underground burial sites.

The Pyramid Bent is a giant pyramid with a unique curved shape located at Dahshur. Bent was the first smooth-faced Egyptian pyramid to be built and so far the glossy limestone exterior remains intact. Pyramid of Ben is said to be the burial place for the father of King Khufu - Sneferu.
