

Admire the ASUS Eee PC 1000

With a larger screen, larger keyboard and larger SSD, the Eee PC is one of the top-class laptops today.

With a larger screen, larger keyboard and larger SSD, the Eee PC is one of the top-class laptops today. But you will have to pay more for those 'more' things.

In response to competitors in the mini notebook field, ASUS has released the fifth PC Eee model within 2 months. However, with this new design, instead of increasing the difficulty of selecting from the numerous Eee PCs with the same look on the market, the Eee PC 1000 is superior and seems to become one of the most beloved laptops. like most.

With a 10-inch wide screen and a spacious keyboard, \$ 699 is a price that suits its sports design rather than the Eee PC 1000H (\$ 549) brothers of the same type. However, the Eee PC 1000 (note that there is no H at the end) not only imitates blindly: a 40GB SSD hard drive - the largest SSD hard drive available for notebook mini - and the customized Xandros Linux version (Now it is possible to preload more applications, which will make the device run faster with longer time.

With a 10-inch screen, the Eee PC 100 becomes the largest mini notebook today: With dimensions of 10.5 x 7.5 x 1.1–1.5 inches, this system is 10 inches larger than MSI Wind NB (10.2 x 7.1 x 0.8 inch). This 1kg system weighs 56g heavier than the MSI Wind, 110g lighter than 1000H.
