SOUL EMOTION2 - Soul's first affordable segment headset

Previously, Soul was famous for sports-style headphones and speakers and had specialized products for sports practice. Typically, Soul X-Shock, Soul ST-XS, Soul ST-XX are extremely popular in many markets around the world.

After the success of ST-XX in February with the opening speed of 1000 units after only 18 hours of sales. Soul continues to launch in Vietnam market SOUL EMOTION2 model with "unbelievable" price, only 599K.

Overall evaluation, while the product is in the low-price segment, it still ensures the high quality standards that Soul sets. Still a product with natural sound quality, smart touch and many useful features.

Design: Small - Compact - Lightweight - Dynamic and Personality

Similar to ST-XX, EMOTION2 "sibling" retains the "Kanketsu" design language, minimalism and sophistication. The contours of both the Charging Box and Housing are modern and youthful. The product has 3 main colors, but is available for sale in Vietnam with 2 basic colors Black and White.

The weight of the headset is only 4g, with a total charging box of 34g. Among the lightest headphones to date. The compact Housing section feels comfortable for hours on end.

Duration of use 4.5 hours headset - Use up to 18 hours with Box charger

The duration of use of the headset can be up to 4.5 hours of listening / calling up (depending on the volume of the headset) and the total usage time is up to 18 hours when used with a 410mAh charging box. With a compact design like SOUL EMOTION2, to get the duration of use is "terrible" such a whole optimization of the performance of the chip in a respectable way. Help minimize the performance wasted during use.

Integrated IPX4 water resistance

The IPX4 water-resistant headset is water resistant, and can withstand wet conditions such as rain and movement sweat. Convenience in using headsets during physical activities. The headset was tested for 7 days, running for 2 hours every day with a total of 70 km using headphones, providing a comfortable experience, without clogged or wet discomfort.

Many convenient and interesting features

The connectivity of EMOTION2 is stable with bluetooth v5.0 and the latest standard bluetooth profiles HFP, A2DP, AVRCP, HSP provide a comprehensive connection experience in static and dynamic moving environments. Test at 70km / h travel by motorbike still shows good listening and calling.

Accurate and sensitive touch control, along with Soul's automatic auto-connect, automatically open and connect devices when taking headphones out of the Charging Box and automatically disconnects when leaving headphones on Charging box. It all happened quickly within a few seconds.

Regarding the ability to talk, headphones that support listening to calls and conversations through microphones are equipped on the headset. Evaluation of conversational function in a static environment is very good, when talking in an outdoor environment, moving or noisy of not excellent at all. Overall the ability to talk is completely acceptable and satisfied with this price.

Equipped with fast charging Type-C included. Fully charge in 2 hours - use 18 hours. Use 80 minutes only need 10 minutes of charging.

All in all, with a prominent True Wireless headset like the SOUL EMOTION2, is really a "bargain" for you to love the True Wireless headset experience at the Super Early Bird price of only 599,000 VND. The program will start on March 20 with a limited number of offers, please pay attention to sale hunting to avoid missing out.

Advantages

- ? Beautifully designed, minimalist and fashionable language
- ? Duration "crisis" 18 hours of use
- ? Integrated IPX4 water resistance
- ? Stable connection. Automatic intelligent connection

Defect

- ? The ability to make and receive calls is not excellent in noisy environments
- ? The special design of the charging box makes it hard to find the protective case that comes with it
