

# Akali DTCL season 10: Items for Akali K/DA, Akali True Damage

Akali has not appeared since Truth Arena season 6, until DTCL season 10 when she appeared again. And Akali is the most special 4 gold champion of this season 10 when there are 2 Akalis in the champion list.

Akali has not appeared since Truth Arena season 6, until DTCL season 10 when she appeared again. And Akali is the most special 4 gold champion of this season 10 when there are 2 Akalis in the champion list.

One is you can choose Akali K/DA and two is Akali True Damage, depending on whether you put more K/DA or True Damage champions, Akali will turn into that clan. However, the equipment for both versions of Akali will be the same. If you want to see more suggestions, scroll down below.

## Akali stats, skills and clan DTCL season 10

### Clan

### Breakthrough

**Breakout**

Akali is a member of K/DA or True Damage depending on which Trait has more fielded champions. She gains a different Ability depending on which form she takes.

**1 Bonus Effect**

Akali K/DA Akali True...

Akali will be a member of K/DA or True Damage depending on which Team has more champions on the field. She has different Skills depending on the clan that Akali activates.

### K/DA

**K/DA**

All units that start combat in the lighted hexes gain max Health, Ability Power, and Attack Damage. K/DA champions go All Out, which doubles these bonuses.

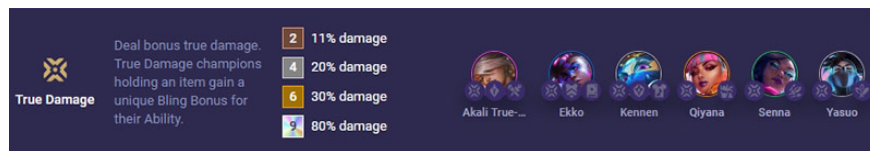

Your lighted hex pattern changes each game.

3	+10%, 10 AP	Ahri
5	+15%, 15 AP	Akali K/DA
7	+23%, 24 AP	Evelynn
10	+50%, 80 AP	Kai'Sa
		Lillia
		Neeko
		Seraphine

At the start of combat, all champions in the idol space gain maximum health, ability power, and AD. K/DA champions will evolve into their All Out versions and gain double these stats. The more K/DA members you add (celebrity guests, Superfans, and champions with seals all count), the more power milestones you'll reach, and the more initial stats you'll gain.

1. 3 K/DA: 10% max health, 10% attack damage & ability power
2. 5 K/DA: 15% max health, 15% attack power & magic power
3. 7 K/DA: 20% max health, 20% attack damage & magic power
4. 10 K/DA: 50% max health, 100% attack power & magic power

## True Damage

True Damage champions deal bonus true damage. Not only that, their abilities have a unique passive that activates when an item is equipped.

1. 2 True Damage: 15% damage
2. 4 True Damage: 30% damage
3. 6 True Damage: 45% damage
4. 9 True Damage: 95%, unique passive will increase to Platinum rank

Both True Damage and K/DA increase Akali's damage, so in the late game, you will need items for Akali. She will need support items to heal or stay on the field longer. Akali will have to compete with Ahri at 4 gold along with other 4-gold DTCL season 10 champions such as Caitlyn, Ezreal, Karthus or Twisted Fate.

## Skills and stats

1. Cost: 4 gold
2. Health: 900/1620/2916
3. Energy: 20/70
4. Armor: 55
5. Magic Resistance: 55
6. Magic Power: 100
7. DPS : 60/107/193
8. Damage: 70/126/227
9. Attack Speed: 0.85
10. Critical Rate: 25%
11. Range: 1

### **Akali K/DA**

#### **Skill:**

1. Throws a shuriken at the farthest unmarked enemy, dealing **50% / 75% / 150%** physical damage and marking them. Dashes to all marked enemies and deals **225% / 225% / 675%** physical damage to each enemy.
2. Superstar Buff: +300 health, +10% attack speed

### **Akali True Damage**

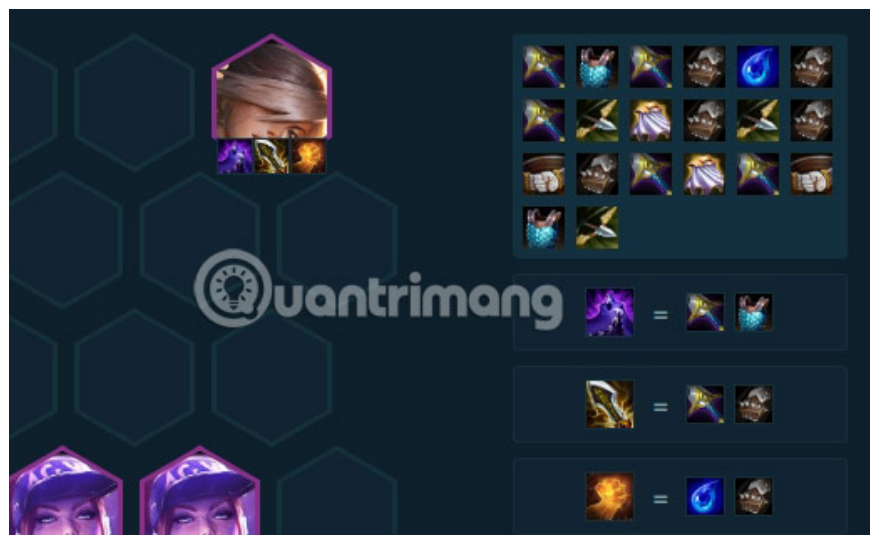

#### **Skill:**

1. Deals **225%/225%/600%** physical damage to the three nearest enemies three times. For each surviving enemy, Akali regains 8/8/20 mana.
2. True Damage Buff: Heals for 20 damage dealt.
3. Superstar Bonus: 100 bonus health and 10% attack speed.
4. Position: Top/Middle

## **Akali DTCL season 10 equipment, equipment for DTCL season 10**

Because the buffs in both clans support damage, Akali will need support items. However, you still need a few items such as **Infinity Edge**, **Reign Bow**, **Hand of Justice**, **Retribution Mace**, **Giant Slayer**, **Titan's Power** in addition to items that help Akali prolong her life such as **Cloak of Decipherment**, **Cloak of Darkness**, **Bloodthirster** . In which, **Sterak's Gage** is an item that supports both recovery and damage, very suitable for Akali.

You will need to collect Sparring Gloves, BF Sword, Wooden Bow, Giant's Belt, Necromantic Cloak, Chain Vest. Champions that can carry items for Akali are Kai'Sa on K/DA and Twitch on True Damage.

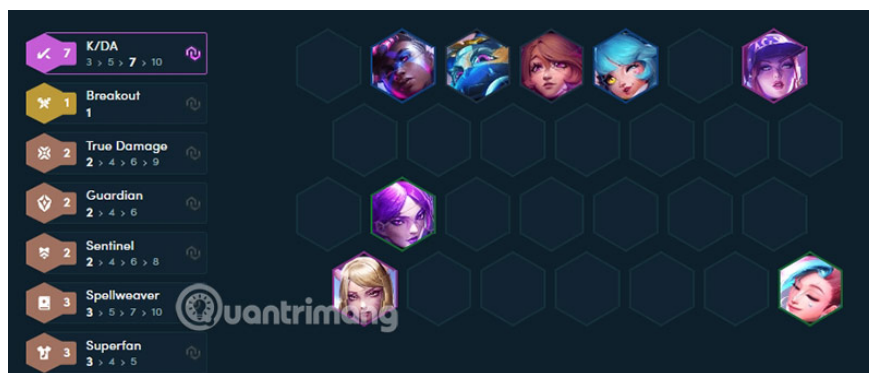

## Akali DTCL Season 10 Squad

Because she has two classes, Akali is very flexible, you can start with True Damage or K/DA. Both groups have champions that deal damage throughout the entire time until you find Akali.

### K/DA

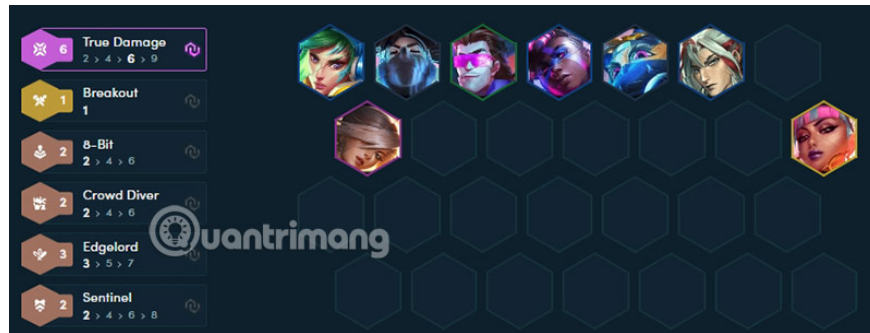

K/DA can be combined with other champions to increase the buff, for example below are K/DA champions combined with Kennen and Ekko. Remove Evelynn to get 7 K/DA when you have a Superstar. Tanks in this team will be thin because tank champions all have low health. So items that increase resistance such as Blood Armor, Gargoyle Stoneplate, Thornmail, Redemption.

Besides Akali, Ahri and Kai'Sa will be the damage dealers, while Seraphine will be below to pump blood for the tankers.

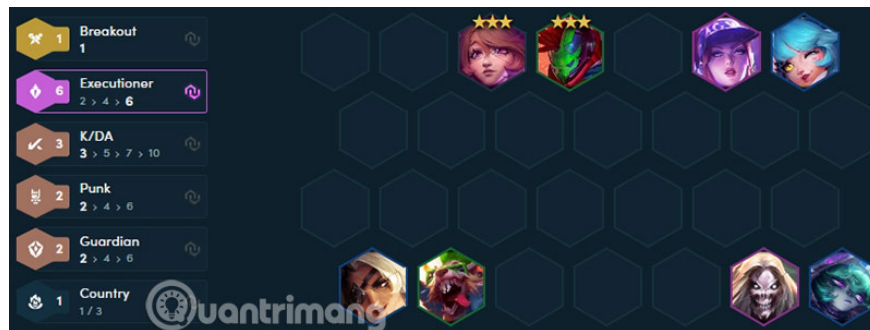

### True Damage

On the True Damage side, the tank line is thicker when it can be combined with Yone, Garen and Riven to thicken the defensive line. The amount of damage can come from many champions in this team, even Riven is a good damage dealer if he has items and stars. Qiyana will pump items for the team and you should focus on this champion at the end to put items on your champion.

Or you can switch to Executioner, Executioner's tank is quite weak but the damage is great when there is Samira, Karthus, Twitch who are the champions that deal great damage next to Akali. Combining True Damage or K/DA is easy in this team.

Either way, Akali can easily switch between K/DA or True Damage unless you have a good team and don't want to switch to the other team. The core of the problem is that you just need to build items and good stars for Akali to at least get TOP 4.
