Why is there a Toppat Airship map?

Because players Among Us have almost explored all of the current map and they always need a fresh challenge.

Details of Toppat Airship

Size

Toppat Airship is expected to be the largest map in Among Us, bigger than Polus. It certainly offers players a more unique experience. Therefore, this map makes it easier for astronauts to notice each other. An impostor can take action to defeat a target without being detected.

However, it sometimes creates a disadvantage for the impostor, making it difficult for them to gain an advantage when the astronaut team begins to act.
