

Ancient statues of gods hold 'modern handbags', evidence of traveling through time?

After discovering some ancient statues in their hands that looked like modern handbags, conspiracyists believed it was evidence of time travel.

After discovering some ancient statues in their hands that looked like modern handbags, conspiracyists believed it was evidence of time travel.

Recently, the UFO Today website posted a video with a title that made many people curious: *"The secret of the handbag in the ancient stone carvings and statues, ancient alien origins?"* .

Some ancient statues hold in their hands that look like modern handbags.

In the video, many statues of gods, carvings of ancient nobility from Mesopotamia (Middle East region) to Mexico (South America), statues from the Sumerian, Phoenician, Assyria and Etrusca civilizations They hold a handbag with many similarities with modern women's bags today.

Many people hypothesize whether these "modern handbags" are brought back to ancient times by time travelers or that what kind of alien technology has emerged since time immemorial. Whether that theory is true or not, this is still a mystery for scientists to explore in the future.

1. The missing plane returned after 35 years, a decade-long moment, . does "time loophole" really exist?
2. 7 cases of "cross-space" mystery that science "hands up"
