

# Android 10 will be released on September 3, these are the smartphones that will be on Android 10 at the earliest

According to information posted on PhoneArena, Android 10 will be officially released on September 3.

According to information posted on PhoneArena, Android 10 will be officially released on September 3.

All Google Pixel phones including Pixel, Pixel 2 and 3, Pixel XL, Pixel 2 XL and 3 XL, Google Pixel 3a and Pixel 3a XL are the first smartphones to be updated to the new operating system, Android 10. This are phones produced by Google so that they are upgraded to the first Android 10, a direct update from Google is understandable.

The ASUS ZenFone 5Z will almost certainly have the final update for Android 10 as this device is part of the beta program.

In addition, the earliest smartphones to Android 10 include Essential Phone PH-1, Huawei Mate 20 Pro, Sony XPERIA XZ3, Techno Spark 3 Pro, LG G8 ThinQ, Nokia 8.1, OnePlus 6T, OPPO Reno, Realme 3 Pro, Vivo X27, Nex S, Nex A, Xiaomi Mi 9 and Xiaomi Mi Mix 3 5G.

Another noteworthy point is that Android 10 version will support well for folding screen smartphones like Samsung Galaxy Fold or Huawei Mate X.

1. Appeared Galaxy S10 images running Android 10 and a more streamlined, more modern One UI 2.0 interface
2. Android 10 has 193 security errors that need to be processed before it launches on September 1
