## Ways to get more Anime Ultra Verse codes

In order not to miss valuable gifts, players can apply many different ways to find more Anime Ultra Verse codes:

1. **Follow the game's official page:** The publisher often releases new codes during holidays, events or when the game releases updates. Follow the fanpage, Twitter, Discord or the official community group for the fastest updates.
2. **Watch livestreams or special events:** During character launch livestreams, collaboration events, or milestones, developers often give away codes to encourage viewers. This is a rare opportunity, so pay attention to the broadcast time.
3. **Join the gaming community:** Facebook groups, Reddit, or fan-made Discord servers often share new codes quickly. Joining helps you exchange gaming experiences and not miss any codes.
4. **Follow gaming Youtubers/Streamers:** Some streamers often have exclusive codes given away by the publisher. If you follow them regularly, you can receive rare gifts.

## Errors that cannot redeem Anime Ultra Verse code

When entering the code, sometimes gamers encounter errors that prevent them from receiving the reward. Common errors include:

1. **Expired code:** Most codes have a limited time of use. If entered after the expiration date, the system will report an error.
2. **Typing wrong characters:** Codes usually contain uppercase, lowercase, and numbers. Even one wrong character will make the code invalid. It is best to copy-paste directly.
3. **Previously used code:** Each account can only enter each code once. If you have used it, the system will not allow you to enter it again.
4. **Network or server connection error:** Sometimes the server is overloaded or the network is weak, causing the code entry to fail. Just wait a moment and try again.
5. **Code is only applicable to some servers:** There are cases where codes are issued separately for each region. If you enter the wrong server, the system will reject it.
