

Anti-bacterial keyboard netbook

Samsung N140 is a netbook replacement for the NC10 version launched last year. The keyboard of the device is covered with an anti-bacterial protection

Samsung N140 is a netbook replacement for the NC10 version launched last year. The keyboard of the device is covered with an anti-bacterial protection .

N140 has an elegant design with glossy finish and 5 colors, black, white, red, blue, brown and purple. The machine weighs only 1.27 kg. A special feature is that the N140 has an antibacterial keyboard - meaning that the keyboard is covered with a protective layer, eliminating all types of bacteria that appear on the surface of the key.

N140 uses 10.1-inch LCD screen, LED backlight without mirror, integrated 3 Watt stereo speaker system SRS stereo technology. Besides being fully connected, like Wi-Fi 802.11bg / n, Bluetooth 2.1 + EDR, 3-in-one card reader, and USB charging port, support fast charging of electronic devices like mobile phones , MP3 player even when turned off.

Samsung N140 is still running Windows XP Home operating system. 6-cell battery with up to 11 hours of use.

The machine has been sold in Europe for 339 euros, equivalent to 9 million.
