

Antminer S19XP, the 'healthiest' Bitcoin miner on the planet

Antminer S19XP is the world's most powerful Bitcoin mining device recently introduced by Bitmain - the world's largest manufacturer of cryptocurrency miners.

This is the latest model of [Bitcoin](#) miner in the S19 series, which was launched by Bitmain in 2020. Antminer S19XP is advertised as 27% more powerful than S19 Pro but 27% more energy efficient.

S19XP has a [computing](#) power of 140 terahashes a second (TH/s) - which means it makes 140,000,000,000,000,000,000,000 guesses per second to find the next block in the blockchain. ("hashrate") - a metric used to measure power. This huge hash rate far exceeds Bitmain's most powerful Antminer model, the S19 Pro, which has a mining speed of 110 TH / s.

Antminer S19XP is equipped with a chip manufactured by TSMC on the 5nm process, so it has the lowest power consumption compared to any current Bitcoin miner, consuming 3010W. This means that the efficiency of the S19XP is 21.5 watts per terahash (W/TH), while the S19 Pro uses a 7nm chip that has a power output of 29.55 W/TH.

According to calculations, each S19XP miner can earn about 53 USD/day, up to 25% higher than Antminer S19 Pro and Whatsminer M30S - Bitcoin miners are rated as the most profitable today. .

Antminer S19XP has a starting price of 10,500 USD / one. Currently, Bitmain has started accepting pre-orders for the Antminer S19XP. S19XP and will start shipping the first batch in the third quarter of next year.
