

Apple repair free for iPhone 6s when the device is not on the power

Apple is opening a free repair program for iPhone 6s and 6s Plus which is sold from October 2018 to August 2019 when the power is not turned on.

Apple is opening a free repair program for iPhone 6s and 6s Plus which is sold from October 2018 to August 2019 when the power is not turned on.

On its website, Apple announces that the iPhone 6s and iPhone 6s Plus manufactured between October 2018 and August 2019 may not turn on due to some defective components during the manufacturing process.

Free repairs on the device will be warranted for 2 years from the date the device is sold. To find out which iPhone 6s devices are under warranty, you can visit Apple's support page and enter the serial number of the device.

Some additional notes about the free repair program for Apple's iPhone 6s and 6s Plus:

1. The free warranty is only limited by Apple in some countries, it is unclear whether Vietnam is or not.
2. If your iPhone 6s / 6s Plus is covered by a warranty that has encountered an error and has gone for a repair fee, please contact Apple at the link below to get a refund.

1. To get a free repair of iPhone 6s / 6s Plus under warranty, you can take it to Apple Store or Apple authorized centers.

Apple launched the iPhone 6S and 6S Plus in 2015 with a new rose gold color, a 12 MP camera, and 3D Touch. Immediately, the duo created a fever, selling 13 million units after only 3 days of opening sale. iPhone 6S and 6S Plus are the last iPhone models to be equipped with a 3.5mm headphone jack.

1. Apple released iPadOS / iOS 13.1.2, fixed Camera issues, iCloud backup and some other small bugs
2. Apple released iOS 12.4.2, which supports older iPhones and iPads
