

# Apple sold the refurbished iPhone X, starting at \$ 769

The good news for iFan, Apple has now started to sell iPhone X refurbished on Apple.com website for the US and UK markets with a starting price of 769 USD (17.9 million) for the 64GB model.

The good news for iFan, Apple has now started to sell iPhone X refurbished on Apple.com website for the US and UK markets with a starting price of 769 USD (17.9 million) for the 64GB model. If you want to configure 256GB, it will cost \$ 899 (VND 20.9 million), \$ 230 less (5.3 million) than the original price. Overall, this price is much lower than the new iPhone XS, and importantly if you don't want to have to use the smartphone too big, the iPhone X with 5.8-inch screen is absolutely a reasonable choice. This is the second time since the beginning of last year Apple sold revamped versions at a lower price to earn profits and also to discharge inventory, following the case of the iPhone SE.

## 1. Revealing Apple's latest invention: The keyboard is made of glass and can be bent

However, one thing you need to keep in mind is that despite being refurbished, the iPhone X will still be more expensive than the iPhone XR. The iPhone XR has a starting price of \$ 749, and if you want to use a new one or like the 'openness' feel, the 2018 model will be a smarter choice. The iPhone X is equipped with dual camera and OLED screen higher resolution than the iPhone XR, but in terms of processing power, the iPhone XR dominates with the Bionic A12 chip, which is used on both iPhone XS and XS Max. In addition, the battery life of iPhone XR is also better than that of iPhone X.

1. A 14-year-old child who has found a FaceTime error on iOS

The refurbished iPhone X will still receive the standard warranty from the date the device is delivered. Users can extend the 1-year warranty when purchasing AppleCare + package for \$ 199 (4.6 million). Overall, you can count on the quality of refurbished iPhones.
