

# Application shifts the old face in a flash

FaceApp is an application to edit images, transform faces from young to old or change face sex in a flash.

Most people use photo editing applications to enhance the art of photos, erase unwanted details on the face to make your "selfie" image more beautiful. So have we ever tried to take a photo, but is my face getting old?

FaceApp is a very unique photography application, which helps users to transform their faces aging with the wrinkles of old age. Or you can use FaceApp to change the sex of any face. With FaceApp's ability to recognize the face extremely well, our "selfie" image will become completely different.

## FaceApp application transform faces

1. Download the FaceApp Android app
2. Download the FaceApp iOS app

### Step 1:

First of all, we will download the FaceApp application for the device according to the link above. In the first interface, the application will require users to allow **access to the Camera** , click **OK** . Then you will need to grant FaceApp permission to **use the album available** on the device, click **OK** .

OK

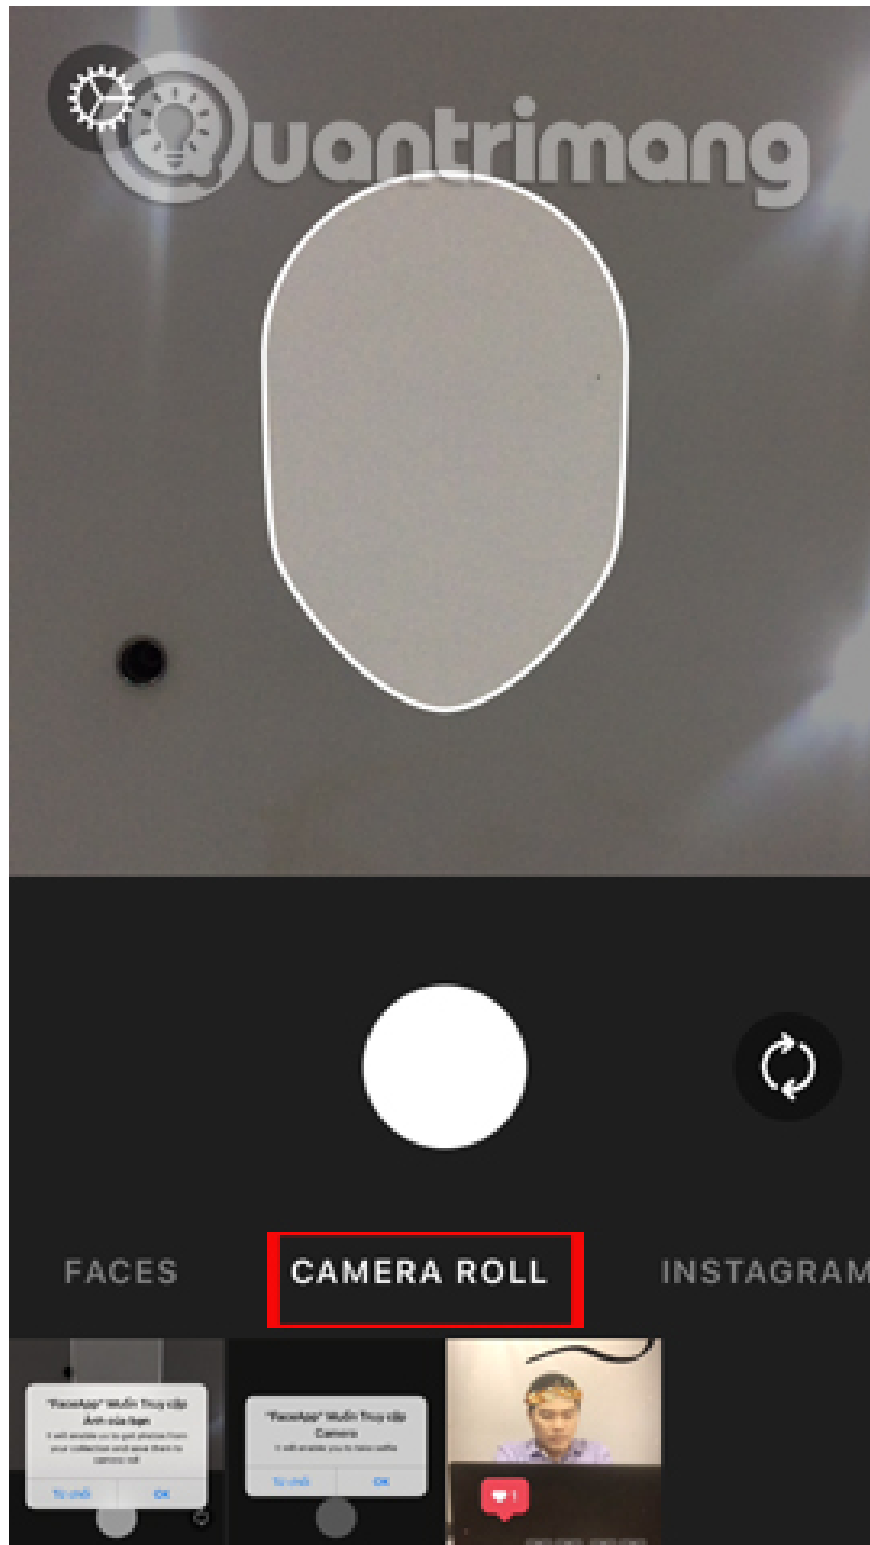

## Step 2:

Here, the application will assist you to take new photos or use photos in the album. If using a new image, users need to adjust so that their face matches the white frame on the application and then press **the white round icon** to take a picture.

In the case of using the photos available in the album, we press **Camera Roll** .

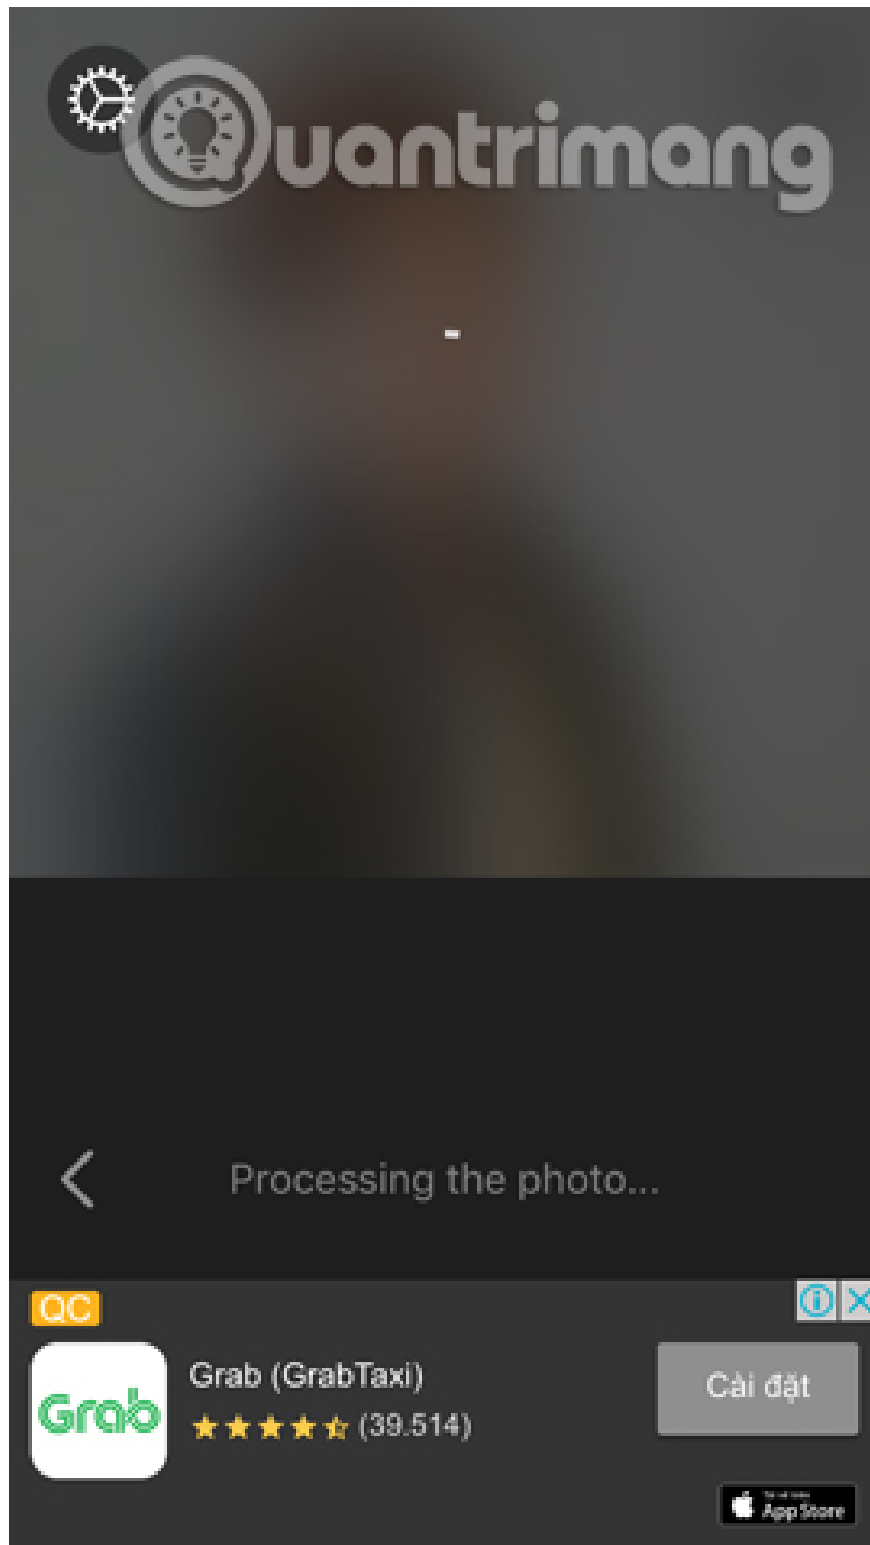

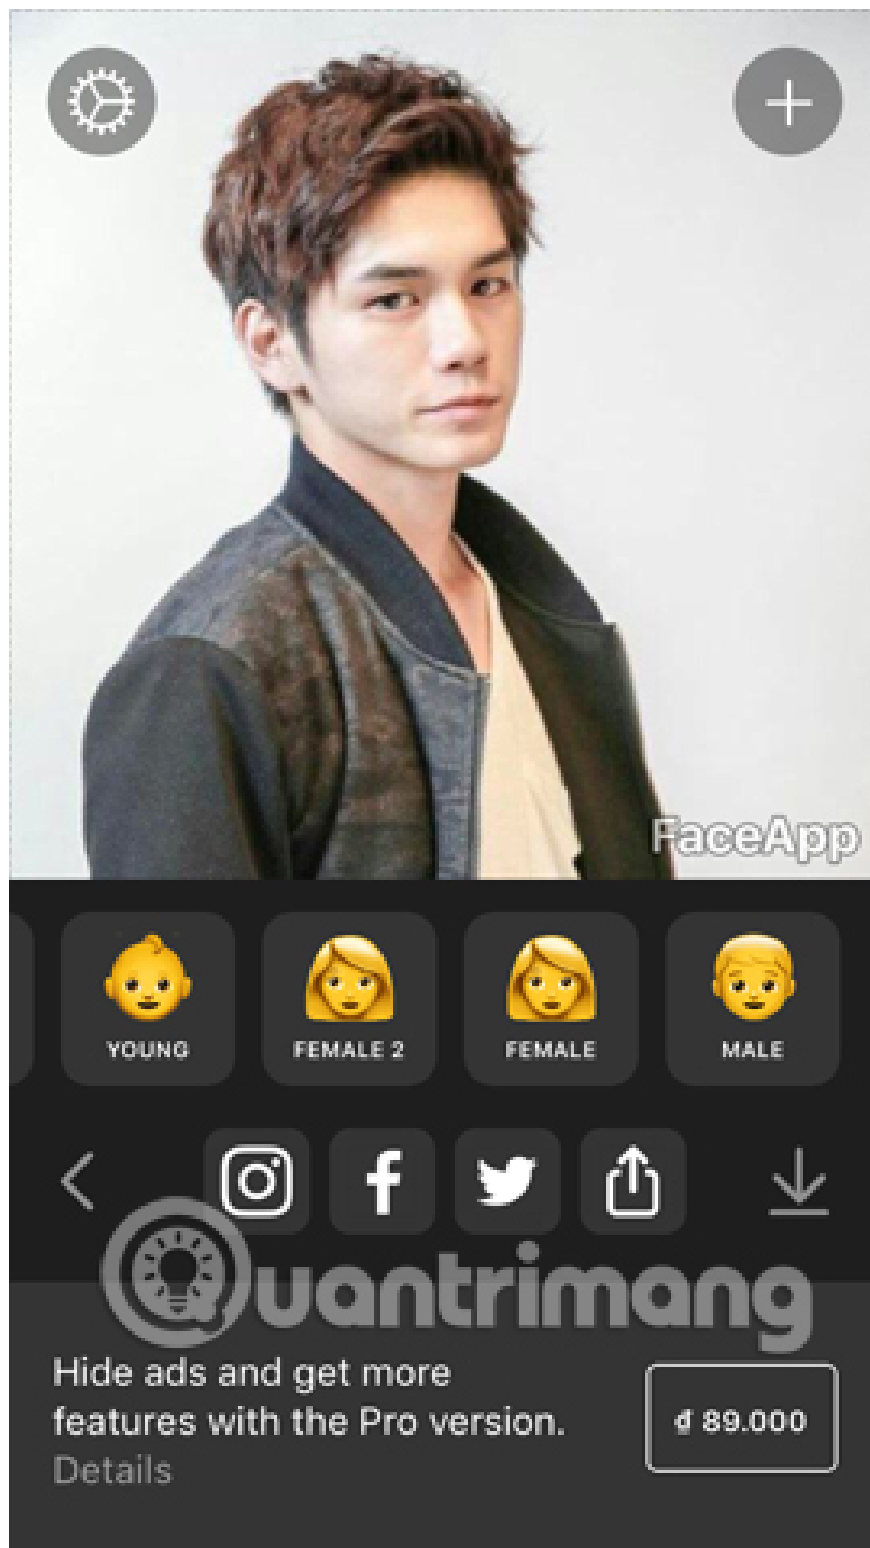

### Step 3:

After selecting the image, we wait a few seconds for the application to upload the image to the system and use facial recognition technology to conduct face editing. The uploaded image defaults to the Original filter, we swipe right or left to select another filter.

FaceApp offers 6 filters including Smile (Laugh), Hot (Hot), Young (Tre trung), Old (Gia), Male (Male) and Female (Female).**Note** , in the process of using the device must be connected to stable WiFi.

For example, here I will apply **the Old filter** . The image will look like the image below. Try adding **filters Smile** see.
