

Art of looking at people - The secret of 'catching the song' the opposite person through habits

Nature always manifests itself through phenomena and none of the phenomena completely does not manifest itself. These behaviors may seem minor, but may reveal more or less human personality.

1. What does the hand reveal about your personality?
2. Do you know what your daily routine will reveal about you?
3. Funny science: The shape of lips can reveal your personality

The nature of every human being is always expressed through external actions. These behaviors may seem small, but they also more or less reveal your personality.

If you want to choose friends to play, then you can look at their behaviors below, but these behaviors are small but become habits of many people, if you pay attention to those behaviors, you also have How to know their true personality.

1. Stand up straight, close your legs and put your hands behind your back

People with this habit are often people with knowledge and position in society, they are aware that they are superior to others, but not so that they appear arrogant to those around them, left These people are often very confident, friendly and sociable with people.

2. Put your hands in the pockets or pockets

People who are often in the habit of putting their hands in their pockets or tops are often those who have a rather cautious way of thinking, but these people are indecisive, lack of strength and lack of flexibility (often solve problems in the old way). Maybe they are afraid of failure, often frustrated, discouraged when facing difficulties and challenges.

3. Vibration legs

Do you often sit and shake your legs? This reveals that you are a confident person and always feel good about yourself. However, it is also possible that you are a conservative and self-contained person, in relationships these people often fail to make many friends.

4. Flap your head

Head-to-head behavior often occurs when someone suddenly comes up with something important or how to solve a problem. These people are often open-minded, straightforward and optimistic. When working, they can make mistakes because they do not plan, do not think carefully.

5. Touch your hair

Do you often put your hand up to touch your hair, so maybe you are a person of personality, generous, thoughtful, meticulous, courageous, adventurous and novel.

6. Touch your hand to the nape

People who like to put their hands on the nape are usually those who look inward. These people are very good at hiding their mood whenever they encounter sad or happy things. So you can hardly know what they actually think in their hearts?

7. Anti-hanker

Does the anti-numb image make you think of terrible and daring women? In fact, those who have these behaviors are indeed persistent people. But when working, they do very seriously, finish everything but never give up halfway. In front of an incident, they may observe the psychology of the outsider and wait to see the results.

8. Nodding / shaking your head

People with this habit are often very confident, want to express themselves through work, work hard, do not manage hard or hard. There is a very high spirit of learning.

9. Blinking signal

The act of winking is often considered a bit rude. People with this habit are often quite arrogant, but their personalities are very liberal and very good when communicating with people in every situation.

10. Cracking fingers

People who like to bend their fingers are often very sweet talkers and know how to care about people and the issues around them. The way of thinking of these people is often very logical thinking, having their own ideas. These people have their own way of thinking so they are very picky about work and work environment.

11. Likes to sit in a corner

People who like to sit in a crowded place or less communicate with people around are usually humble, even self-deprecating people.

12. Rub your fingers into your mouth, stroking your nose

Just like winking, the act of brushing your fingers into your mouth, stroking your nose is also considered a rude behavior. These people often take others to mock them to make fun of themselves. Maybe they have no idea, often follow others' ideas.
