

Asgardia - What is special about the first cosmopolitan country in the world?

This cosmic country is open to all residents on Earth and is completely free.

Asgardia is the first cosmopolitan country in the world, proposed by Dr. Igor Ashurbeyli, a Russian scientist in October 2016. The name of this country is named after a heavenly land in the gods. Nordic phone. In particular, this cosmic nation is open to all residents on Earth and is completely free.

1. How many countries and territories are there in the world today?
2. Saudi Arabia built a \$ 500 billion super city spread across three countries, 33 times larger than New York

Currently, there are more than 450,000 citizens from all countries in the world join the country outside of this space.

Dr. Igor Ashurbeyli said that the purpose of establishing Asgardia is to protect the world and life on the Earth from the dangers in the universe, both artificial and natural, such as space debris, good solar storms. meteorite impact. At the same time it will also be a new state without borders, regardless of race, color, religion.

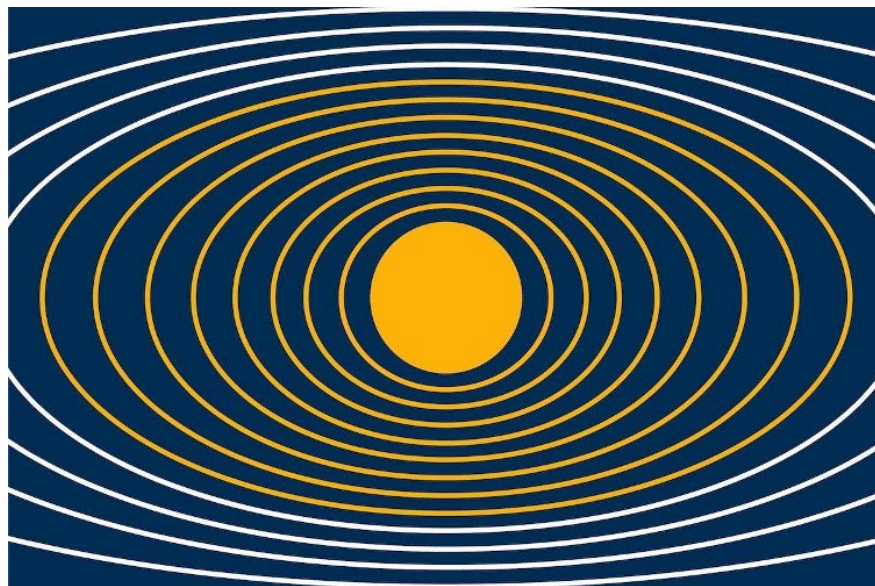

Dr. Igor Ashurbeyli, who proposed the establishment of Asgardia.

The Asgardia project team wants to build facilities for people to live in the low orbit of Earth, first at altitudes 161 - 321 km, where the ISS station is operating. As expected, the first flight takes people to this "flying country" in 8 years.

On 12/11/2017, scientists successfully launched the Asgardia-1 satellite into orbit, beginning to realize the dream of the cosmic nation. Asgardia-1 will bring information of citizens flying out of space about 15-18 months.

Currently, the project team is preparing for the next satellite launches but has not announced a specific time.

The symbols of the first cosmopolitan country such as the national anthem, national flags and emblems are being voted on the official website. Even the embassy of Asgardia will be placed on continents on Earth in the near future.
