Three models of netbooks introduced by Asus include Eee PC 1201PN, 1018P and 1016P. Two 1201PN and 1016P models will use the Intel Atom N450 processor, of which 1016P can be updated to the Atom N455 processor. The other one, 1018P will be equipped with Atom N455 or N475 processor. All of these products will use Intel GMA 3150 graphics chip.

1201PN is more prominent when the latest netbook is equipped with Nvidia ION 2 platform with 12.1-inch screen with HD resolution of 1366 x 768 pixels or video playback of Full HD 1080p via HDMI port. This model has 1GB of DDR2 RAM, 160GB hard drive, supports standard Wi-Fi and Bluetooth v2.1 + EDR.
