

Asus launched the Zenfone 6 with automatic flip camera, 5,000 mAh battery, priced from 499 USD

Asus has just launched the Zenfone 6 with the same design as the 2013 Oppo N1 model, full screen with no rabbit ears, the main camera can flip from back to front into a selfie camera that allows the device to optimize the display space. Front view.

Asus has just launched the Zenfone 6 with the same design as the 2013 Oppo N1 model, full screen with no rabbit ears, the main camera can flip from back to front into a selfie camera that allows the device to optimize the display space. Front view.

The screen is 6.4 inches full of four sides, no rabbit ears, uses LCD panel, the screen display ratio accounts for 92% of the front area. This makes the Zenfone 6 one of the thinnest screen-clad smartphones on the market today.

The screen of Zenfone 6 is capable of displaying 100% DCI-P3 color band and 96% NTSC color band, providing beautiful color display, high brightness, which can be clearly displayed in outdoor conditions.

Its dual camera cluster includes a 48 MP main lens and 13 MP ultra wide-angle lens, equipped with an auto-rotate camera body. When needed, this camera system will automatically flip forward to take care of the camera selfie.

The auto-flip mechanism of the camera on Zenfone 6 has been tested by Asus 100,000 times. It can function normally for up to 5 years if you use 28 times a day on average. In addition, Asus also equips this camera system with sensors to automatically turn and rotate when left in the bag or avoid collision when dropped.

Zenfone 6 also incorporates a number of shooting modes similar to the Oppo N1, which rotates to capture when the user raises the device horizontally or vertically.

Zenfone 6 camera is integrated HDR + mode combined with Super Night Mode, capable of fast, low noise, accurate color reproduction even when shooting at night.

The power of Asus Zenfone 6 comes from Snapdragon 855 processor, optional 6G or 8 GB RAM corresponding to 64GB or 256 GB internal memory. Zenfone 6 is also equipped with fast clean technology Quick Charge 4.0, battery capacity up to 5,000 mAh.

Zenfone 6 version 6 GB RAM, 64 GB internal memory priced starting at \$ 499, and \$ 599 for 8 GB RAM version, 256 GB internal memory will cost \$ 599. It will be sold in Europe with 2 colors including Midnight Black and Twilight Silver.
