

Asus quietly came out with a 13-inch touchscreen Vivobook laptop

The 13.3-inch Vivobook S300 costs about \$ 600, just being added to Asus 'Vivobook' family with only 11.6-inch and 14-inch models.

The 13.3-inch Vivobook S300 costs about \$ 600, just being added to Asus "Vivobook" family with only 11.6-inch and 14-inch models.

Asus said Vivobook S300 weighs less than 1.8 kg and 20.32 mm thick. In general, the size of the product is not so excellent but not so "bulky".

The 13-inch Vivobook S300 has a variety of processor options.

In terms of processors, users can choose different chip models, including Celeron 847 ULV, Pentium, Core i3, Core i5 and Core i7-3517U. Customers can also choose RAM memory from 2 GB to 4 GB. The machine uses a traditional hard drive of 320 GB or 500 GB. The Vivobook S300's 13-inch screen has a resolution of 1,366 x 768 pixels.

Supported connections on the Sivi Viviobook include standard Wi-Fi, Bluetooth 4.0, VGA, USB 2.0, USB 3.0 and HDMI. The battery included with this model is type 44 Whr. It supports SD memory card reader.

Currently, the price of Vivobook S300 13 inches has not been announced. However, because the price of the 11.6-inch Viviobook S300 is \$ 499, the 14-inch model is \$ 699, so the 13-inch model will cost mid-range, about

\$ 600 (about 12.5 million).
