

# Asus ROG Phone 3 leaked many important parameters, may launch in July

Asus ROG Phone 3 is the 3rd generation of Asus gaming smartphones.

Recently, a device believed to be Asus ROG Phone 3 has appeared in the database of the Eurasian Economic Commission (EEC) in Russia. This shows that the release time of ROG Phone 3 may be right in July with the Zenfone 7 smartphone line.

The device in the EEC database is not directly associated with the name Asus ROG Phone 3. However, this device is believed to be Asus ROG Phone 3 based on the model number ZS661KS.

ROG Phone 2 is considered one of the best gaming smartphones of 2019

The existence of Asus ROG Phone 3 has also been confirmed by Asus itself when a number of accessories for the machine have appeared on its homepage. Information related to Asus ROG Phone 3 is still quite scarce. Currently, we only know that this gaming smartphone will be equipped with a USB-C charging port.

Based on WiFi Alliance certification and Geekbench performance test, Asus ROG Phone 3 can be powered by Snapdragon 865, 8GB or 12GB RAM.

In 2019, Asus ROG Phone 2 is rated as one of the best gaming smartphones. Asus ROG Phone series is always appreciated in breakthrough design, screen quality, physical control keys and a variety of accessories included. Hopefully the Asus ROG Phone 3 will inherit the most quintessential of the ROG Phone series.
