

ASUS Transformer Book Flip started selling in Vietnam

ASUS Transformer Book Flip sold in Vietnam for the first time is a 15.6-inch screen version, which can be flexibly converted between a laptop-like mode and a tablet with a starting price of VND 10.59 million.

ASUS Transformer Book Flip sold in Vietnam for the first time is a 15.6-inch screen version, which can be flexibly converted between a laptop-like mode and a tablet with a starting price of VND 10.59 million.

As the second generation of touchscreen laptop from ASUS, the *Transformer Book Flip* features a touch screen that can be rotated 360 degrees (*while the VivoBook generation of touch-sensitive laptops has a rotation angle of only 135 degrees*).

This design allows users to flexibly switch between user mode such as laptop to tablet, use as photo frame . Keyboard and mouse pad will be locked automatically when the machine switches to user mode. laptop

ASUS Transformer Book Flip has a variety of configurations with many options for processor, graphics card and storage capacity. The 15.6-inch screen version has an optional configuration from Intel Core i3 to Intel Core i7 Haswell, integrated graphics card or NVIDIA GeForce 840 discrete graphics card, storage capacity from 500 GB - 1 TB with Hybrid SSD hard drive option.

Multi-touch screen with the latest Windows 8.1 operating system brings the optimal experience for users.

Formally, *ASUS Transformer Book Flip* is equipped with a slender, metallic body for high durability and elegant appearance.

The device was sold in Vietnam right from October 2014, the starting price is 10.59 million dong.
