

## Asustek 17.3-inch 3D Notebook is available in the first quarter of 2010

Asustek Computer plans to release a 17.3-inch 3D notebook - G72GX - in the first quarter of next year, with prices expected to be more expensive than Acer's.

**Asustek Computer plans to release a 17.3-inch 3D notebook - G72GX - in the first quarter of next year, with prices expected to be more expensive than Acer's.**

The main parameters of the machine include Intel Core i7 CPU, Nvidia GeForce GTM 160M GPU, 4GB of memory and two 320GB hard drives.

Asustek also plans to release a 15.6-inch 3D notebook - the G51J3D - by the middle of this month with similar CPU, GPU and hard drive parameters similar to the aforementioned 17.3-inch notebook model.

Asustek applied many models.

Since Asustek LCD mirror technology is more advanced for 3D visual effects than Acer's 3D Aspire 5738DG notebook, the price of Asustek's 3D notebook is expected to be higher than Acer models (779.99). USD in the US, about 14 million VND.

Both Asustek 3D notebook models will be produced by Pegatron Technology. HP and Dell are also expected to follow, launch similar products in the future.
