

# Backup power Mi Power Bank 3 Pro new version, capacity 20000mAh, laptop charger

Mi Power Bank 3 Pro is upgraded with 2-way fast charging, with a maximum charging capacity of 50W, faster than the old version (45W).

Xiaomi recently announced a new version of its Mi Power Bank 3 Pro charger model at a product launch event held yesterday (September 24).

Mi Power Bank 3 Pro is upgraded with 2-way fast charging, with a maximum charging capacity of 50W, faster than the old version (45W). This new power bank of Xiaomi supports fast charging with both output and input, can charge up to 3 devices at the same time.

Features & specifications of Mi Power Bank 3 Pro are no different from the old version.

The upgraded version of Mi Power Bank 3 Pro is about  $153.5 \times 73.5 \times 27.5$ mm, thicker than the original version. The outer shell of this power bank is made from environmentally friendly PC + ABS plastic.

The battery capacity of the Mi Power Bank 3 Pro backup charger is about 20000mAh, equipped with two USB Type-C ports (can be charged 2-way fast with a capacity of up to 50W) and two USB-A ports (reaching a maximum of 18W). It takes about 4 hours to fully charge the 20000 mAH battery.

Mi Power Bank 3 Pro can charge laptops with USB-C ports that support Power Delivery (power transmission). List of laptops compatible with the Mi Power Bank 3 Pro power bank include, MacBook Pro 2016 to 2018, Mi Notebook Pro, Mi Notebook AirMacBook Air 2018, ThinkPad T470 / X270 and Dell XPS 13 9350.

Currently, the launch date of the Mi Power Bank 3 Pro 50W fast charging version has not been announced but the price of this backup charger model is already available, about 42USD (about 973,000 VND).

1. Realme launches a 10,000mA backup charger, supports fast charging, priced at 320,000VND
2. Black Shark launched the cool design room, capacity 10,000mAh, price only 390 thousand
3. 6 spare batteries worth buying today
